

TEXAS LAWMAKERS---

ENHANCE THE GOLD DEPOSITORY LEGISLATION!

PROTECT ALL PRIVATE PROPERTY RIGHTS!

Presented November 2016 by Charles Savoie

**“Where An Excess of Power Prevails Property of No Sort
Is Duly Respected”**

---President James Madison (1809-1817)

“The Ecstasy of Gold” [fantastic](#) instrumental!

Texas officials should loudly tell lame duck President Obama to stop provoking Russia and China because he wants to hold onto power! In regard to Texas owned gold in New York, specifically it's owned/managed by UTIMCO, the University of Texas Investment Management Company, whose board has stated the gold doesn't have to be moved to Texas, but in any case, they insist that the gold remain part of the COMEX system! The Governor and the Legislature must oust any UTIMCO board members demanding the gold remain [linked](#) to COMEX! There are skeletons in this closet! Section 2116.022 of the bill prohibits leasing, swaps, derivatives et al, and as the COMEX is heavy into all that chicanery, UTIMCO management has set itself at defiance against the Legislature and the Governor! We will detail this as we progress.

On June 12, 2015, Texas Governor Greg Abbott signed into law the H.B. 483 Texas Bullion Depository Act into law, providing for a precious metals bank under the auspices of the State of Texas. The bill, widely trumpeted in pro-freedom and pro-gold sites, tragically contains some offensive flaws and deficiencies as to important matters not addressed! The first flaw is seen twice in section [2116.023](#) on the all-important matter of "Confiscations, Requisitions, Seizures and Other Actions Void" where we read these words in regard to protection from confiscation or nationalization by Uncle Sam of precious metals owned by depositors---

"OTHER THAN AN AUTHORITY OF THIS STATE"

You don't have to be an attorney to see what's wrong. The bill says the Federal government can't swoop down and seize the gold, but the State of Texas is reserving to itself the right to do just that! Since the Texas Bullion Depository intends to be open to depositors from other States and nations, it would be a severe blow to the reputation of the Depository if Texas started seizing gold from out of state residents. Depositors would do better buying gold chains from a ridiculous clip joint like "ex" Silver Users Association member Tiffany & Company and immediately taking a severe haircut by selling to any of the internet "We Buy Gold" sites! Additionally if the Depository started seizing, or allowing other Texas State agencies to seize gold owned by residents, it would create a tendency to make Texans owning gold who haven't become depositors to stay away, and discourage persons and businesses out of state from coming in. If a State government, county or city tyrannically steals your property, are you any better off than if the Federal government slits your financial throat? Confront this question; don't rationalize! The question will persist as long as the underlying problem persists! Some reprobate legislator reading this is snickering at it and thinking, "Well, we'll give the confiscated some old Texas Redback paper currency issued in 1839 by Governor Mirabeau B. Lamar!" Can't the people of Texas get better representation than this?

Texas has a very poor rating in civil asset forfeiture by the [Institute](#) for Justice. Oklahoma State Senator Kyle Loveless is campaigning for his legislation called the “Personal Asset [Protection](#) Act” which would shield Oklahomans from being deprived of possessions without due process; meaning, a criminal conviction must be obtained in court before authorities can deprive citizens of their hard earned personal property---of their life’s savings! The burden of proof must at all times be on the accuser and requiring the accused to prove innocence on mere stated suspicion and accusation on the part of persons who stand to gain from forfeitures is a serious revival of the old witch hunts and philosophically is an act of dumping sewage onto the Founding Fathers graves! If all the accuser has to assert is that he has a suspicion, it inevitably follows like foul odors from the aforementioned sewage that the accuser will rapidly become very suspicious of all citizens/voters/taxpayers within view! The public is merely low hanging fruit to be taken at will by power trippers!

Oklahoma recently became [notorious](#) for the deployment of [ERAD](#) (Electronic Recovery Access to Data) [machines](#) with highway patrol units. See at minute 11:50 of the previous [hyperlink](#)! Oklahoma Governor Mary Fallin issued a temporary suspension on their use; however, she cannot be blindly [trusted](#) and the spotlight must be on her [actions](#) 24/7. It's highly likely that news of these card readers seriously harmed tourism in Oklahoma---why enter a state where you can be legally robbed? How many innocent parties have had to declare bankruptcy due to such actions? If suicide on the part of the robbed follows, the authorities will merely deem him or her a "scofflaw." We are being dragged back towards medievalism! What's next, breaking bones on the wheel? Texas has a [\\$500](#) fine for stealing a pack of chewing gum, yet authorities place a bogus sacrosanct aura around the dirty deed of grand larceny when its "sworn representatives" steal boundlessly more! If the reader wishes to have the best grasp of this presentation, it's necessary to visit the [hyperlinks](#). Oklahoma has Kyle Loveless, who do Texans have? Kentucky Senator Rand Paul is [fighting](#) this hideous situation on Capitol Hill. Yes! Republicans are more likely to be reasonable about this. If The Hilarious Rotten (Rodham) Illuminated One wins, the Dark Ages return within weeks! It's likely that Oklahoma motels, restaurants, gas stations and tourist attractions have already lost millions due to this blow against the state's travel reputation turning it into garbage!

Found at <http://www.tulsatoday.com/2016/>

To have the Texas Bullion Depository open for business in 2017 in this environment of extremely fragile, unprotected private property rights is to hinder its potential to attract gold, silver, platinum, palladium, [rhodium](#) or even copper ingots, though copper is currently distant from monetary affairs. Yes; we actually did have for generations, a tri-metallic monetary system, with the last copper cents being phased out in 1982. The depository may also have a safe deposit box section where clients will be encouraged to store valuable items such as diamonds and rare numismatic coins. Again we have section 2116.023 to view in a most dubious light! Why should any depositors come in absent 100% legal protection? Texas legislators, do the right thing that the Founding Fathers of America, and the Founding Fathers of Texas including Sam Houston, Stephen F. Austin and William Barret Travis would insist on---respect all private property 100% and touch none

of it absent a felony conviction! Sam Houston (1793-1863) was profiled in "Texas President Sam [Houston](#) and Silver" released in December 2010. In Houston's time, tracing back to his long association with his brilliant mentor Andrew Jackson, the term "coin patriots" referring to gold and silver existed and was in use to describe hard money men such as Jackson and Houston. The Century Magazine, August 1884, page 495 article titled "General Sam Houston" said that Houston was "always sensitive to money obligations." Houston and Jackson evidently both had Divine protection, as an assassin tried to shoot Jackson in 1835 and brought two pistols; both misfired! Houston was attempted to be shot in 1832 by a Congressional adversary of Andrew Jackson; the gun misfired! In all seriousness comparing the spiritual and philosophical stature of any current Texas politician to that of Sam Houston, would be to leave the current individual in a boundlessly overshadowed status in all aspects---fiduciary and militarily included! A 67 foot tall monument to [Houston](#) stands at Huntsville Texas! Sam famously advised, "Do right and risk the consequences"---

Private property rights, and the recognition thereof by Texas State law, must be restored in order to achieve maximum public and business confidence in the Texas Bullion Depository. That would constitute remedy for the defect seen in the disconcerting language “other than an authority of this state,” and the bill doesn’t specify any need for criminal felony conviction in order that depositors could receive a certified letter that their gold has been converted to State ownership because some malevolent hick cop in a three pig town like [Tenaha](#) Texas wanted to act like a burglar and filch it. These awful incidents have been so severe that even national media have been forced to provide [coverage](#). Along those lines, as someone who looks askance (“[Affluenza](#)”) at

the psychological occupation (“our degrees give us immunity from mental illness” is always implied), regardless it does appear that persons capable under color of law of becoming a [menace](#) to law abiding citizens should be required to attend a psychological evaluation including review of their actions as often as cars are required to pass state inspection. Will the State Legislature and the Office of the Governor, having acted to create a gold depository, also act to slap the hands of “law enforcers” away from private property rights of Texas residents to own precious metals? Can anyone literally be a cookie jar to be raided at whim, to have their lawfully earned possessions purloined? It is not attributable to citizens that precious metals, like cash, have a characteristic of non-traceability. Throwing the net over everyone because a few cheat the system is just an excuse to allow unlimited greed on the part of beneficiaries of state sanctioned thefts. Check out this scene with former Arkansas Governor Mike Huckabee and Judge Andrew Napolitano at 6:57 to 8:30 at <https://www.youtube.com/>

Texas residents! Shut off the TV football games, step back from the beer, shut off the professional wrestling, shut off Doctor Oz and take some moments to tell your legislators to make the changes you want or you’ll have to vote for other contenders. Stop living vicariously through celebrities and pro athletes and face reality---it’s brewing in Austin! Take down the pirate flag of civil asset forfeiture from over the Texas State Capitol building in Austin! Along these lines of monetary/financial reform (property tax), the State

Legislature should craft a statute banning cities (“municipalities”) from having any draconian fines for mere code violations; the Constitution banned excessive fines and petty officials must be reminded of it. Cities that have irresponsibly run up lots of debt as by bond issues must not be allowed to plunder their often defenseless residents to pay down the debt. Texas is one of only ten (10) states still imposing an annual tax on [business](#) inventory (2%) which is a hidden tax on the public, and just as bad, it causes businesses that are marginal to be shuttered, often resulting in loss of life’s savings! **STOP RANSACKING THE PUBLIC!** There are many services provided by government that should be provided by private charity or private enterprise or not at all. John Coffee Hays was a captain in the Texas Rangers when in 1841 he was trapped by a native war party up on world famous Enchanted Rock west of Austin, and single-handedly battled out of danger; bring his kind back, ok? Because like General Sam Houston, he was a man’s man---

Will Texas state troopers “interdict” private citizens en route to the Bullion Depository building and seize their precious metals in the name of the “war on drugs?” In view of their (alleged) bosses, the State lawmakers having crafted this depository legislation, surely not; but the question needs to be asked! See, someone with 150 ounces of gold enroute could end up with 150 ounces of pinto beans as their net worth if Mongol horsemen strip them of their life’s savings, as in the case of Oklahoma, found at

<http://www.foxnews.com/tech/2016/06/17/oklahomas-use-card-readers-to-freeze-seize-funds-comes-under-fire.html>

Beans? It’s reminiscent of the 17 Texas defenders executed on March 25, 1843, by Mexican forces after they drew black beans denoting execution out of a container that had mostly white beans. Eastland County Texas was named after one of the fallen defenders. Today police are taking the place of

hostile Mexican troops interfering with Texans lives! From previous link---

"We're gonna look for different factors in the way you're acting," Oklahoma Highway Patrol Lt. John Vincent said. "We're gonna look for if there's a difference in your story. If there's some way that we can prove that you're falsifying information to us about your business."

Pardon us; we were under the impression based on the Bill of Rights and the Fourth Amendment that we would be free from unreasonable searches and seizures. And what about "different factors" in the way people like this uniformed crook Vincent are acting? Suppose Texans are motoring towards the Bullion Depository and police pull them over and start "looking for different factors in the way they're acting" and "looking if there's a difference in their story," now police have become roving "witch prickers" who can always determine any innocent person to be guilty, same as police who "cue" their drug dog to "[alert](#)" on a vehicle so they can search it without consent! Anyone is guilty if they want them to be guilty! To be accused certifies guilt! The witch prickers in England in the early 1600s concocted, like psychiatrists today with their universal catch all lists, a rule that if a needle up to several [inches](#) long was stuck deeply into a suspected witch, that if the person being "tested" didn't cry out, they were deemed [innocent](#). Naturally not crying out was impossible, as the needles could be inserted anywhere, including into the spinal cord. *God protect the public from people who have no*

conscience! Calling something “fraternal” doesn’t make everything it does right.

It is none of the police’s business what anyone is doing with any cash, credit cards, debit cards, jewelry or whatever, their occupation, where they bank, their destination or if on their backside there is a wart with a hair growing out of it, absent obviously wrong circumstances like exiting a window at night! They’ve come to feel that since they carry the power of dealing out sudden death, they should become the most affluent persons in the country. No pal---income is by skill level needed and the ability to freely attract business to yourself. You won’t see any cops performing delicate ophthalmological surgeries! If you’re in this power occupation and you want to earn more income, provide a product or a service, write some songs that will sell, improve an existing product, write software, invest successfully, marry rich or whatever---“Thou shalt not steal” applies to you also, as does “God is not mocked; whatsoever a man sows, that shall he also reap” and “if you do it to the least of these, you do it to me” (Matthew 25:40). The “war on drugs” must be ENDED as per the example of the nation of Portugal
<https://news.vice.com/article/ungass-portugal-what-happened-after-decriminalization-drugs>

Witch pricker needles could amount to ice picks and victims were pierced as many times as necessary to “prove” the accusations against them---

**"THE RIGHT TO BE LEFT ALONE IS THE RIGHT MOST VALUED BY
A FREE PEOPLE."**

---Supreme Court Justice Louis Brandeis, 1928

Davy [Crockett](#) came all the way from Tennessee to fight for Texas independence from Mexican tyranny, and poured out his life at the Alamo on March 6, 1836---only to have Texas become a tyranny from within 180 years afterwards? The same fate visited Jim [Bowie](#) of whom his mother said, "I'll wager no wounds were found in his back."

I am a chocoholic and a coffeeholic and nothing more. Is that OK? And if the Almighty wants me to continue to function as a public voice it shall not be otherwise. What's up with the condition of the Dallas Police & Firefighters Pension [Fund](#), under threat of collapse by January 2017? Is anything spiritual going on there? Maybe Santos [Rodriguez](#) knows. Now they want taxpayers to [bail](#) them out with over \$1 billion when taxpayers had nothing to do with its mismanagement. Get the funds from those who made the bad investment selections! Don't start seizing citizen's houses to cover the shortfall! Retired persons can always become Wal-Mart greeters, huh?

The level of debt in this country, especially national and going down to state, county and municipal debt is so burdensome---

along with personal and corporate debt---that there is no way out besides the inevitable declaration of debt expungement or repudiation! Biblical types may use the word “jubilee.” That will harm many just creditors, but it makes more sense than governments becoming so tyrannical that they can strip motorists of their life’s savings just for being within range of a “law enforcer” who declares his “suspensions.” High school administrators coast to coast must be required to maintain records of students known to be bullies and hallway toughs. On application to police academy or security guard position, the records must be checked and if they were flagged by school administrators, the applicant must be denied without any possible recourse, including court action. That includes football players who incurred penalties for unnecessary roughness. MD’s carry malpractice [insurance](#); police must also as soaking the public in court judgments for official transgressions is very wrong. There are ways to purify this power occupation, and we must all begin immediately. [Shooting](#) dogs in their own [backyards](#) is not a job “perk.” Allow anyone ever more power, inevitably a group of mega-sinners coalesces. As per the [statement](#) from “Plato’s Stepchildren” from the original “Star Trek,”

“Power will turn even saints into savages, and we can all be counted upon to live down to our lowest impulses.”

Citizens property shouldn’t be under a menacing aura from overbearing and compassionless officials that their hard earned life’s possessions could be arbitrarily looted from them

based on someone who has a self serving incentive to claim they have a “suspicion” acts to deny time hallowed due process and seizes, in the manner of a highwayman, the property as pirated booty so a costumed [hooligan](#) can get a margarita machine for his “department;” others **rented hookers!** Wake up call! The public wants law and its protections to apply equally to everyone! We must not become a nation governed by Redcoats.

“There is no crueller tyranny than that which is perpetuated under the shield of law and in the name of justice.”
Frenchman Charles De Montesquieu (1689-1755) who also said “Useless laws weaken necessary laws.”

Neighboring New Mexico in April 2015 distinguished itself against most other states by [rescinding](#) civil asset forfeiture.

It does surely send a message that the Texas Bullion Depository should be built somewhere in New Mexico instead! Montana, a great gold and silver mining state, quickly [followed](#) New Mexico's lead and also tossed civil asset forfeiture on the state's junk heap, so to speak. Some Texans and residents of other states where private property rights have yet to be accorded full respect, have discreetly moved their precious metals to unknown sites in these friendlier jurisdictions, until their home states enact reforms; that includes me. It's in one of the 33 counties. The New Mexico bill should serve as a model for reform in the Lone Star State. The Governor of [Florida](#) signed a bill requiring criminal charges before property can be ripped off. Other progress has been made more recently against this Inquisition of theft, "Congress Defunds Civil Asset Forfeiture Program" (of the U.S. Justice Department) <http://www.texasturf.org/2012-06-01-03-09-30/latest-news/eminent-domain/2144-congress-defunds-civil-asset-forfeiture-program> However this nightmare isn't over, thanks to the botulized Obama administration, whose thoroughly demonized policies Hillary Clinton wants to see revved up, civil asset forfeiture so-called "equitable sharing" was [resumed](#) soon afterwards. Who is Hillary's "patron saint?" [Elizabeth](#) Bathory? If this harridan, with her trainload of Pilgrims Society connections (continue reading) enters the White House, we must assume that lashing out against gold and silver savers will be near the top of her assigned priorities list. Will a Clinton administration Treasury Secretary direct the Internal Revenue Service to start harassing gold and silver savers, especially those in the Texas

Bullion Depository? This regional trend to remonetize precious metals is a source of fear to the British loyalists in DC and NYC. Texas must figure ways of blunting such potential actions.

The reference about the Governor of Florida comes from a researcher with---

TEXAS TECH UNIVERSITY
Free Market Institute™

It's countlessly repeated that cash can facilitate narcotics trafficking because cash doesn't trace like checks or online activities. WELL? The same can be said of the possibility of using the former 90% silver coins and gold and silver bullion for transactions out of view of overbearing government entities. If it can't be traced, it should be banned, huh and better yet, confiscated? The same is true for diamonds without laser inscriptions. Is there a contemplation at high levels among Texas politicians to criminalize precious metals holdings within Texas borders, if after some period of time those assets aren't added to the Texas Bullion Depository? There is no free market without voluntary uncoerced interactions. Individuals and businesses must be completely free to pay for goods and services directly with precious metals, when buyers, sellers and payers are all agreeable to it. That means that scales and testing devices will have a sales boom. Just as gold and silver must not be concentrated in the national Treasury building; no, they must be free to change physical hands across the entire economy; so it also must be in Texas. People can pay through the Bullion Depository, or they can pay by bullion/coin direct! This choice must always be enshrined and defended. It's true that for many, the weight and bulk of silver (until its price normalizes) will tend to encourage them to store it in the Depository and do transactions therefrom as by a debit card adaptation. However, Texas residents don't need their State leaders to take the place of Uncle Sam carrying out financial tyranny against the public; let the free market function and precious

metals will flow towards the most favorable destinations. On the matter of illegal narcotics, we the non-represented public resent that medical pharmaceutical drugs (“medications” so called) cause more deaths than illicit drugs, yet scant action comes against pharma bilge. How many legislatures besides Congress get lavish funding from Big Pharma? Can gold and silver dealers cite that their profits are as robust as those of pharma peddlers? Americans can’t view any of the managed news sources on TV without being bombarded, barraged, assailed, deluged, pelted and avalanched with an onslaught of manipulative “ask your doctor” ads and a molded over torrential parade, a repetitive salvo of lousy pharma commercials all featuring the embedded buzzword “clinical” to the tune of nearly hypnotic music intended to “get to” the often gullible public!

CLINICAL

May interested parties ask, are gold and silver clinical? If the American Bankers Association donates to the American Psychiatric Association, will the psychiatrists then deem gold and silver savers as being “afflicted with clinical hoarding disorder?” Will Pharma scientists concoct a stylish vaccine to “treat the illness?” The American Bankers Association has been against precious metals as money for most of its existence, especially silver. What’s the stance of the Texas

Bankers Association on the State Bullion Depository? This group has 5,269 branch banks. You'd have to expect they're unhappy about it.

We mentioned New Mexico and Montana as States returning to the ideals of the Founding Fathers. Utah made moves in [2012](#) (House bills 157 and 317) to remonetize gold and silver. On June 4, 2014, Oklahoma by [legislation](#) affirmed that gold and silver coins are legal tender there provided that both parties to transactions agree that payment be made thereof. Similar moves in Arizona were blocked by two Governors with links to the New York Money Power. [Tennessee](#) lawmakers in 2016 passed a nonbinding resolution ([vote](#)---95 to zero) to create a Tennessee Bullion Depository, and Oklahoma and Wyoming lawmakers have also had this thought. The author of the Texas Bullion Depository Act, Giovanni Capriglione, has admitted to receiving many [inquiries](#) from legislators in other States as to how to create their own version of the Texas gold bank. The same link has him quoted as making these lackluster remarks---

"We are never going to get rid of the Federal Reserve System."

---& this crushing heartbreaker---

"The state would hire an outside firm to manage the depository."

Persons sincere as to hoping for improved prospects for Texas and America should recoil at such remarks. The FED must be scrapped entirely. Not only that, but the entire net worth of the dynastic exploitative families who own the FED should be seized! Texas intends to have an “outside firm” manage the depository? That could be a whole other fly in the ointment or rat’s rump on a banana split, especially if the firm has any connection to any of a whole range of by invitation only membership groups concentrated in but not limited to the northeastern United States. Will the questionable “outside firm” have some connection to the COMEX? We shall ponder that more as we progress; having a fox guard the hen house is unseemly. Having an outside firm manage it is insufficient improvement over just leaving the gold with the super-corrupt HSBC. On the other hand, Capriglione may have made a muted statement about the FED to disarm certain elements; we aren’t mind readers however. Would it not be very unbecoming if the outside firm isn’t based in Texas? But if it is based in Texas, yet its management is actually in the hands of spooks from monetarily subverted centers like Manhattan, Boston, Philadelphia, D.C. or Chicago, the public is still at risk of mistreatment. Why have a fox guarding the henhouse? None of the management of any “outside firm” should reside anywhere besides Texas. The Texas [Tribune](#), October 30, 2015, page 1, said that “major international players” have expressed interest in constructing the building; actually it says they want to “get a piece of the plan,” that could include construction and/or management. These MIP’s---major

international players, invariably end up with Wall Street and/or City of London connections.

Could the “outside firm” be the American [Banknote](#) Company, which produced the bogus currency of the first United States Bank over 200 years ago? It prints funny money for some foreign central banks.

My mind racing, it even occurred to me that by having an “outside firm” manage the Depository, it could worst case develop into a backdoor attempt at Federal seizure of the metals, once the Depository’s vaults were bulging. Probably not, but stranger things have transpired in history. What if the “outside firm” schemed to have the metals picked up by Federal convoy starting after midnight, and hauled to DC? The managers could take refuge at any number of castles in England, the home base of precious metals price suppression--
-said castles owned by members of the metals suppressing Pilgrims Society (continue reading!) **Beware any development that causes the Texas National Guard to be summoned to some distant point from the Bullion Depository!**

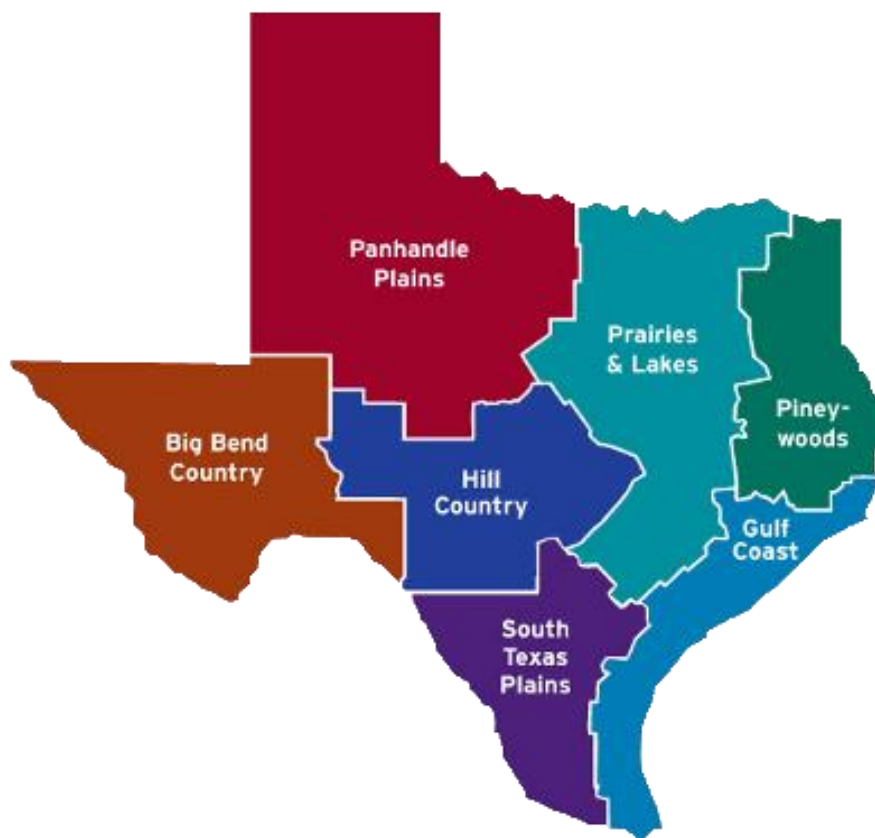

This [statement](#) issued by the office of Governor Greg Abbott says the Depository will be “administered by the Office of the Comptroller.” Everyone needs to be on the same page. Or is the meaning that an outside firm will manage the Depository under the authorization of the Texas State Comptroller? We can’t have any of this situation to be murky! This statement issued on June 12, 2015, read as follows---

"Today I signed HB 483 to provide a secure facility for the State of Texas, state agencies and Texas citizens to store gold bullion and other precious metals. With the passage of this bill, the Texas Bullion Depository will become the first state-level facility of its kind in the nation, increasing the security and stability of our gold reserves and keeping taxpayer funds from leaving Texas to pay for fees to store gold in facilities outside our state."

The connections of any outside firm should be relentlessly investigated; in particular, the genealogies of those involved and are they members of any globalist elitist by invitation only organizations? What is the primary bank of the outside firm? Does the outside firm have a Wall Street or a DC law firm? Another interesting matter is where the legislation mentions exclusions to depository agent licensing. Avery B. [Goodman](#)--- well known attorney who has written about COMEX and related matters, what say you? In any case bill #483 isn't much to scrutinize compared to the I Shares SLV Silver [Trust](#), which was a masterpiece of New York legalese.

School [districts](#) were cited as an example of public entities that could open accounts in the Texas Bullion Depository. Sure; place some of the proceeds of theft (property tax) into the Depository---it might indirectly help those stolen from to recover a few percent of their loss. Only people who consume services should be compelled to pay for them; if uncoerced charity cares to chip in, allow it.

Some may recall the TV [commercial](#) for Pace brand picante sauce made in San Antonio. Someone introduced a substitute without the right flavor. On reading the label it was discovered to have been made in New York City, whereupon the chuck wagon crowd said “get a rope!” Most New Yorkers are OK but their leadership is as bad as it gets, especially in financial affairs. This gold is considerably more important than all the picante sauce ever made in Texas.

How about the new hit song, “What I [Like](#) About Texas;” how would an “outside firm” fit into this exhilarating Texas attitude? Some gold has been found in stream gravels in the

central Texas Hill Country, which makes us want to listen again to the tremendous Hill Country [theme](#) and the Willie Nelson [version](#)! Why bring gold (prospectively) back to storage in Texas, if the State hires an “outside firm” to manage it? Is there a plan for some ultra shady City of London firm to be the management? Remember how in 1989 the historic Treaty Oak in Austin was [maliciously](#) poisoned? Please don’t let the Texas Bullion Depository be poisoned by wrong trajectories and withered by absence of proper protections! Capriglione however remarked about wanting Texas to become a “[commodities](#) hub for the continent.” So? Let Texas entice silver, gold and copper production from Mexico by building a large smelter; after which, let the metals be bid for in an unleveraged cash only system.

The New York Times, September 21, 1942, page 26 had this from Congressman William S. Hill of Colorado---

“These boys from New York have had enough to say about the country’s finances. They’ve put us in a hell of a hole. If we’re going to start overhauling the monetary system, then let’s go all the way and not just talk about silver.”

The Texas State Legislature and the Governor should issue a public resolution demanding an unhindered audit of alleged Fort Knox gold, with all 50 States sending a member of their legislatures to tour and inspect the building and every last square foot thereof including all levels. The same goes for the Federal Reserve Bank of New York and its basement vaults.

Texas officials should tell the DC government and the megabanks to step back from their drive to eliminate or penalize the use of cash. Great hypocrisy exists in this movement; for example, the “Better Than Cash” group is spearheading this drive, and they don’t disclose the [identities](#) of their executive committee members! No disclosure = they have things to hide!

The Legislature and the Governor should protect Texans wealth from expropriation by the old East Coast families who own the Federal Reserve System and the Federal government; as a specific key suggestion; **that no Texas residents be required to file with the DC government any statement as to the personal assets they have accumulated---no lists of real estate, art, water rights, agricultural interests, automobiles, jewelry, or precious metals!**

The Texas Bullion Depository is often dubbed the Fort Knox of Texas. If the Bullion Depository is to be the best institution it can be, the changes suggested herein are inescapably necessary. Having accomplished these betterments, even the Marfa [Lights](#) out in far West Texas will glow more brilliantly!

Texas officials should consider placing any surplus state funds into silver bullion, the supply of which is ever more finite contrasted to the supply of digital and paper dollars and the phantom supply of COMEX silver sold naked short to defend the value illusion of the fiat Federal Reserve dollar. A [letter](#) I sent to Drew Edmondson, dated September 29, 2003, received a response but no action, re the COMEX racketeers.

The Texas legislature and the Governor should issue a communiqué denouncing the awful 1986 law giving vaccine manufacturers immunity from lawsuits!

Texas officials should caution the United States Postmaster General against allowing his agency to interfere in any way with precious metals shipments into or out of Texas, at the direction of the Treasury Secretary or the President. If it surprises the reader to encounter such ideas, be aware that the Money Power has “think tanks” scheming 24/7 how to ripoff the public in every possible way and reduce liberty in

this country! I wonder what I've missed as possibilities in the warfare against Constitutional rights; there are many. Brookings is a major think tank in D.C. and major silver antagonist Douglas Dillon (Pilgrims executive committee for 30 years; we will explain this fearsome group as we progress) became chairman of Brookings after leaving the Treasury Secretary post, where he and undersecretary Robert Roosa (Pilgrims) did their dirty deeds to terminate lawful silver coinage---

As expected, bleating voices in university faculties have badmouthed the State Bullion Depository. Cal Jillison with the Southern Methodist University (SMU Dallas) political science department belched out this tawdry [statement](#) in an attempt to bamboozle credulous simpletons---

"At the end of the day, it doesn't make any difference if you have your gold in New York, or Midlothian," he said. "It is state property."

At the end of the day is a hackneyed phrase; he needs remedial writing instruction; the Toastmasters Club could assist. He insinuates that it's just splitting hairs as to where the gold is stored. OK then let him store any valuables he has with the elitist New Yorkers with their shady reputations! Jillison? More like "jettison!" Someone should explain to this feckless and senseless academic what "counterparty risk" means! The Morgan Stanley fraud consisting of storage of [phantom](#) silver on behalf of conned investors is one instance only in an interminably long parade of defalcation by the "dignified" New York financial community, which has corkscrewed and whipsawed the country for literally hundreds of years in a boundless 24/7 shakedown of wealth.

The second United States Bank (1816-1836) had over two dozen branches. Its most basic stab against gold and silver as currency lay in the revolting fact that notes issued from its branches could only be converted into specie (hard gold and silver) at the branch most distant from the issuing branch! Therefore a man in New York City who wanted to convert his notes into silver or gold was required by bank rules to do so at the New Orleans branch! No doubt Professor Jettison would smirk with satisfaction over that! How much space in academic journals has he wasted?

In the so-called “free banking” period after the shuttering of the second U.S. Bank and the Civil War, banking abuses raged on. Charles Bullock in “Essays on the Monetary History of the United States” (Macmillan, 1900), page 85 noted---

“In Ohio, Indiana and Missouri, between 1855 and 1859, certain persons who presented notes for redemption were threatened with lynching.”

Cal Jillison would’ve loved to have been a banker in those times! Note holders were even directed to indefinite locations in uncharted forests and told to go there for note conversion! Jillison authored a book to be avoided as [useless](#) entitled, “Lone Star Tarnished—A Critical Look at Texas Politics and Public Policy.” So desist from tarnishing Texas already, Professor Zero! Here we [notice](#) he’s a “former member of the Council on Foreign Relations.” No wonder he’s bellowing like a stuck hog against bringing any gold to Texas; another globalist funny money hack! He’s an ex-member because they found someone else for his slot who could deliver more influence than this slobbering lackey, but he remains magnetized in their orbit. His book, probably good if you enjoy having the dry heaves, was on Amazon for the overbloated sum of \$135 in hardback. I bought some silver dimes instead! Maybe he can use pine needles in place of [tally](#) sticks! Another “former” CFR member is ex Lieutenant

Governor David Dewhurst, said to be worth \$200 million; he was beaten by Dan Patrick for this important post. Dewhurst is no flunky like Jillison, however.

A state politician warming Jillison's heart would be State Representative Lon Burnam out of Fort Worth, who was quoted in The Texas [Tribune](#) of March 21, 2013 saying of the Texas Bullion Depository bill that he was "skeptical that it addresses a legitimate problem facing the state." It calls to mind a line from "The Rifleman" TV series---"I ain't your [citizen](#) mister loco!" I had an economics instructor in high school who I vividly remember criticized Governor Anson Jones, the last President of the Republic of Texas who took office in 1844, because Jones wanted Texas on precious metals currency rather than mere thin air banknotes, the teacher contemptuously labeling him "ARSON Jones!" Huh? Paper currency---not metallic coins---burns! The instructor insisted that Federal Reserve issue is "scientific currency" and that gold and silver are "for jewelry only."

For marketplace confidence, gold and silver hold supernova superiority over conjured Federal Reserve "dollars!" Jillison would whine "gold bugs and silver simpletons just don't understand monetary science!" But even an armadillo in Palo Duro Canyon knows gold and silver beat paper. It's plain to see whose brand Jillison and Burnam are wearing. No Wolf

Brand Chili for these “payasos” (clowns!) Maybe they’ll be on a camping excursion and trip over the [Balcones](#) Escarpment! Do they have any Texas Blue Bell Ice Cream left over in their freezers, you know, that is listeria [infected](#)? Do they dine at [Chipotle](#) Mexican Grill? Was there bad mushroom in the recipe or a scorpion under the menu? Or is it just that their monetary notions are infected with financial E. coli/[norovirus](#)? Are they delirious from a copperhead bite? No, just taking money from dirty hands! The official Texas state gem as of 1969 is topaz from Mason County in central Texas, with a distinctive Lone Star facet pattern. Fortunately Professor Jettison didn’t choose the state gem; it might have been asphalt gravel!

The Houston Press, January 23, 2015, in a [slimy](#) editorial, “Five Craziest Bills Already Filed With the Texas Legislature,” a cheap hack writer named Dianna Wray (sick as a dog passing peach pits) intimated that if Texas builds a gold bank, the

Federal government will invade Texas a second time; she also made impudent buzzing sounds against the right to keep and bear arms. Does she own any gold jewelry? She should store it with a stolen goods fence! Even [Pravda](#), the great Russian news agency, spoke better of the Texas bill than this ersatz Texas paper and their pitiful blowhard columnist who doesn't have the sense of a fruitcake from the famous [Collin](#) Street Bakery in Corsicana. Speaking of buzzing sounds, has she had experience with the Texas [red](#) wasp, the kind an electrician says hurts worse than a 460 volt shock? Those monsters are on hand in Houston.

Texans can't tolerate any BS attitudes about the Bullion Depository philosophically similar to what McAllen mayor and produce kingpin Othal [Brand](#) said about the nasty pesticide chlordane ---"Sure it's going to kill a lot of people but they may be dying of something else anyway." He was on the Texas Pesticide Board. We best beware of this type of thinking on the part of anyone on a Bullion Depository board or advisory panel. No members of globalist groups on any such board! That includes such elite Manhattan clubs as the Links, New York Yacht, Yale, Harvard, Princeton, Century Association, Union, Union League, Metropolitan, Lawyers, Bankers, Economic, Recess, Seawanhaka Corinthian Yacht, Bathing Corporation of Southampton, River, Knickerbocker, Dutch Treat, Grolier, University, Downtown, Lotos, Church,

Broad Street etc. Ditto for Washington D.C. clubs like the Congressional Country, Cosmos and Army-Navy (site of Silver Users Association meetings!)

The elitist establishment Washington [Post](#) of March 26, 2013, accused Texas leaders of engaging in “paranoid monetary talk” due to the gold bank proposal and bleated---“It was the state’s governor, Rick Perry, who while running for president strongly suggested that Ben Bernanke would be [committing treason](#) should the Federal Reserve print any more money.” Someday Fed notes may be just trash littered along the San Antonio Riverwalk. Bernanke, not in any sense a substantive power in himself but just a flunky like Janet Yellen, has been a research [fellow](#) since 2014 at the insidious Brookings Institution.

Texas legend, barbecue kingpin Walter Jetton was known as chef to Lyndon Baines Johnson, the failure as a Texan who as President was a top ringleader in taking us off silver coins in 1965. We’d have fared better with Walter as President. Too bad LBJ (Lousy Bum Job) didn’t fall over the edge at Santa Elena Canyon at Big Bend or run dry of water at the Hueco [Tanks](#)! The next image comes from the leaked list of The Pilgrims, New York, 1969 roster which goes to members only! Some secretary may have seen it in a desk drawer and realizing its importance, forwarded it to outsiders. This is the

top group in America by a very wide margin; it links us directly to Old World tyranny and it has the country by the throat for over a century. More description will follow---

The Tenth Amendment [Center](#) noted that zero interest rates make gold depositories more enticing! Remember the 10th Amendment is about States rights to not be strangled by the DC government. Texas Monthly [Magazine](#), March 22, 2013, noted that then Governor Rick Perry presented as a hard money man, a sound money man. This is the same Rick Perry who attended a Bilderberg [conference](#) in Istanbul Turkey in 2007. They don't appear to have influenced his monetary outlook; however disgracefully, he mandated [Gardasil](#) vaccine by Merck for Texas schoolgirls in 2007, then in 2011 he rescinded his stance to get voter support in his White House bid. Merck is a Pilgrims Society interest and the public is fed up with vaccine makers using government power to force purchase of their very risky products; nevertheless, herewith some of coyote [shooting](#) Rick Perry's remarks on Texas gold---

"In an effort to increase Texas's financial security, Governor Rick Perry is backing legislation that would bring the state's stash of 6,643 gold bars home from a vault in New York. "We

don't want just the certificates," freshman Rep. Giovanni Capriglione (R-Southlake), author of the bill, told the *Texas Tribune*. "We want our gold." Perry [told Glenn Beck](#) on Tuesday that this is an exercise of the 10th Amendment and state rights. "If we own it, I will suggest to you that that's not someone else's determination whether we can take possession of it, bring it back or not," Perry replied to Beck's concerns that the Federal Reserve would not allow it."

Cal Jillison of SMU ---did you catch that? Does it give you indigestion? Are your public statements on this matter influenced by certain SMU trustees (like Ray H.) with Federal Reserve connections? Henry D. [Lindsley](#), Dallas Mayor in 1915-1917 whose uncle was Secretary of War in the Taft administration, helped found Southern Methodist University with money from the Rockefeller Foundation. Lindsley was a Pilgrims Society member (*Who's Who in America*, 1928-1929, pages 1303-1304) and also founded the American Legion at the close of World War I to harness patriotic fervor to the Society's intentions of staging more big wars! Lindsley was director of War Risk Insurance in the Woodrow Wilson administration. He held interests in Southwestern Life Insurance (controlling interest), investment banking, Dallas Bank & Trust, Dallas Title & Guaranty, United States Bond & Mortgage and real estate including hotel construction. He was a director of Mexico Society of the United States (could

have to do with silver suppression) and his grandson [married](#) into the perverse gold and silver stealing Roosevelt family (Pilgrims Society). The middle Lindsley held lumber [interests](#) in Texas, Oklahoma and New Mexico. The Henry D. Lindsley housing subdivision in Dallas has homes close to the [million](#) range.

There is at all times this sub rosa matrix of influence that Texas is immersed in; it overarches the state like a monumental spider web; it has profound bearing on finance and monetary matters in Texas; hence these truly “non-tangential” details. You need to be aware of The Network as it can and does exert influence against Constitutional money in ways you’d never know! They have servile underlings like this crass boor Jillison always tossing darts against gold sentiment! Better to listen to retired actor William Devane doing TV commercials on gold than to profane the eyes reading The Jettisoned One (the CFR jettisoned him). The Texas Tribune attempted to trivialize the gold returning to Texas by yawning that “the gold bullion at issue is only worth \$647 million” (as of one year ago) as if the sum were of paltry consequence. Does the Texas Tribune care to contribute \$647 million to Texas? And ignored the prospective value being multiples higher.

There must be full respect accorded by the State of Texas to the established [ownership](#) of the Shafter Silver Mine in West Texas Presidio County, currently inactive due to what appears to be ceaseless price suppression in silver by the New York financial community, abetted by the national government's Commodity Futures Trading Commission ("an infested hotbed of subversion for silver shorts" were my [words](#) nearly 14 years ago in January 2003) and 170 [Texans](#) were savagely displaced from much needed employment at Shafter due to totally unfettered COMEX shorts. Silver shorts are unregulated by the CFTC, as officials like James Newsome and Bart [Chilton](#) exiting the CFTC look to these shorts and their cronies for employment! There must be no coercion by Texas that the Shafter silver production, when it resumes, must be delivered to the Texas Bullion Depository. Texas officials should insist that there be no requirement by Congress or the President that Shafter production, or that of any other USA gold and silver mines, must go straight to D.C. by eminent domain based on a conjured national emergency or at any fixed price and hopefully miners won't hedge. Everyone should be at liberty to bid on that production and high bid only should take it. Additionally Texas must not increase any royalty rates, if in place. What does Dallas resident, G. Michael [Boswell](#), former CEO of Sunshine Mining (another miner extinguished by COMEX shorts and silver leasers) think about all these

matters? My eyes widened when I saw the name “DuPont” in his Business Week credits.

Image located at <http://presidiotx.us/zone>

Silver mining companies besides holding supply off the market in response to perpetual shortside COMEX rigging, should buy hard silver when possible. The storage site must be disclosed to shareholders, unlike an instance of nondisclosure from a major in May 2004 when they acquired close to 2MOZ. That was wrong because public companies must report dealings to shareholders. I remain a shareholder due to the property portfolio and noticing who their major shareholders are, I don't wonder why they say nothing about the price rigging.

The fact that those holders are there guarantees a huge bull market.

Texas officials should cultivate relations in precious metals with major silver mining states in Mexico including Zacatecas, Durango, Sonora, Coahuila and Chihuahua. This could result in less silver being bled off by the evil Bank of Mexico, which is in league with the silver suppressing Federal Reserve. This traces much farther back than this quote from the Wall Street Journal of September 12, 1963, page 3---

“Silver users have had to go to the Bank of Mexico to get part of their supply.”

Imagine not only several other states in the USA, but several Mexican states and Canadian provinces copying the concept of the Texas Bullion Depository! Hugo Salinas-Price could come in as consultant to the Mexican Governors involved. It could be seen as a “contagion” by the Money Power that could spread to Argentina, Peru, Chile, Bolivia and Central American silver mining nations! Yes, and Canadians also should perk up to the idea, especially in British Columbia, Saskatchewan and the Yukon.

I am concerned about private vault operators in States that haven't taken the steps that Texas has so far taken (more steps are needed) because wherever a concentration of gold and silver is known to Uncle Sam, the temptation to suddenly move in and seize it under color of national emergency builds. If the vault is insured, the insurance probably wouldn't cover such extreme contingency. Private vaults offshore are subject to the same government risk! How can private vault operators (God bless MOST of them) guarantee clients that a family member won't be kidnapped as leverage to access the stored metal? No doubt they are all well armed, but how can a guarantee be made? The Texas [Tribune](#), October 30, 2015, reported---

“Las Vegas-based Anthem Vault proposed “multiple vaulting locations throughout Texas to enable all Texans access to their bullion within a reasonable distance from their homes.” The company also offered to set up a network of “coin shops and retail storefronts” to accept deposits on behalf of the state depository.”

There is already an informal network of coin shops and gold and silver exchanges; still we must always allow competition.

Texas lawmakers should familiarize themselves with the work of Hugo Salinas-Price, president of the Mexican Civic [Association](#) for Silver and his bedrock ideas for remonetization of gold and silver. With this mention of Mexico I wish to present to the metals community a postulate I have that as

the Money Power's clear goal on silver is to maintain it under a severe price repression as long as possible, it may be that there are some silver sites in Mexico, Peru, Poland and elsewhere, at which silver is being quietly produced out of view---by forced convict labor! I stress this is a postulate but if I can conceive it, the bad boys already had the idea long ago. So what is going on? How can the commercial shorts meet world demand at such stark low prices, and skew the silver ratio to gold so drastically out of whack with the in ground and above ground ratios? Another possibility is that a company in a state neighboring Texas may be, consciously or not, the main drain hole for the SLV---and that when this company posts outages in several dozen silver categories---it may signal a big supply disruption induced by pancake flat prices that the manipulators caused to persist too long! The Bullion Depository Act passed by a vote of [140](#) to 1; many of these State Representatives are worth millions. Why don't they defeat the shortside cartel by buying lots of hard silver, enriching themselves in the process?

Image of Salinas Price [noted](#) at U.S.A. Watchdog

A grave deficiency also exists insofar as boosting to the limit of its potential the Texas Bullion Depository! Texas legislators need to enact a separate bill banning the Federal government from interfering in Texas state commerce (all 254 counties) by requiring any and all coin dealers, gold and silver exchanges and so forth including EBay sellers and internet only dealers based in Texas, from being compelled to remit any and all precious metals they buy from individuals and business, to the United States Treasury, the Department of Defense, the Department of the Interior, a National Metals Stockpile or to the Federal Reserve System. Such a measure would at once attract out of state gold and silver into Texas, once owners are

satisfied as to Texas being a jurisdiction completely guaranteeing private property rights of residents.

Texas residents and businesses may need relief from certain portions of the badly misnamed Patriot Act; another relevant matter for the State legislature to examine. The Texas legislators also should weigh the prospect of telling Uncle Sam “hands off” in another matter, that being the discriminatory 28% capital gains tax on so-called [collectibles](#), including coins and bullion. The suggestion becomes; that Texas residents be exempted from this punitive taxation that exists to steer people away from precious metals. Naturally we anticipate a cascade of loathing from bankers, silver users and bone-gnawing bureaucrats for asserting that the greatest right the world has to the use of silver---is to use it as money; a matter detailed in the January 2006 release “The [Greatest](#) Right.” Texas has a Republican Governor; precious metals investors need relief from naked gold and silver shorts gnawing away at their finances to the marrow on one end, and tax hiking socialist Democrats on the other. The Democrat Party is far removed from the party it was in the times of Andy “By God” Jackson. On a smaller scale of relief, Texas did the right thing and ended State sales tax on gold and silver bullion/coin several years ago, as concerns transactions below \$1,000. If Texas voids Federal collectible taxation on gold and silver within its borders, other States will follow this lead. To move towards a stable money system, sound money must be promoted by a variety of legislative actions. If this sounds like secession, well there are those thinking along those lines.

[Here's](#) Sean Hannity asking Texas Governor Greg Abbott about "TEXIT" as a takeoff on "Brexit." Governor Abbott instructed the Texas State Guard to [monitor](#) Federal activities in Texas during the 2015 "Jade Helm" exercises. He was the only Governor to do the right thing! Abbott [said](#) in relation to Jade Helm---

"It is important that Texans know their safety, constitutional rights, private rights, and civil liberties will not be infringed upon."

Governor Abbott! The Federal Government isn't the only layer of government that people need protection from!

Proof is limitless as to the defects of Federal Reserve currency; accordingly, proposals for competing currencies are frequent; no taxation should accrue as to gains against Federal Reserve currency by any competing currency---including gold and silver!

Jacques Turgot, the French statesman and financier (1727-1781), said---

"SILVER AND GOLD BECAME UNIVERSAL MONEY BY THE NATURE AND FORCE OF THINGS" from which the deduction has been drawn that TO PROSCRIBE SILVER BY LAW FROM BEING USED AS MONEY, IS A VIOLATION OF THE NATURE OF THINGS."

He also cogently remarked, “Respect is tendered with pleasure only where it is not exacted.”

Let’s briefly insert here----Texas legislators----pass a bill immediately----and Governor Abbott----urgently please sign it into effect----that Texas residents are exempted from being forced participants in any bank “bail-ins.” Texans need protection now before the fact against their deposits being converted into bank stock in lieu of their lawful demand deposits! The megabanks JP Morgan Chase; Citigroup; Wells Fargo; Bank of America; Comerica Bank et al----all have millions of Texas residents as depositors. That does include Texas based companies as depositors. In event of any “bail-ins” I suggest the State of Texas seize the bank buildings and real estate, because what must very reasonably be considered as financial felonies will have transpired in event of any involuntary alleged conversion of deposits into bank stock. Oh and do the megabanks propose that the stock be nonvoting, as in restricted stock? Do they plan to “collar” the stock also (at a low level)? Texas also should take a leadership cue from the Government of Iceland and jail any banking management in Texas involved in any bail-in actions! “Iceland Sentences 29th Banker to [Prison](#), U.S. Bankers Still Collecting Bonuses” was a zesty read! Texans should investigate state based credit unions and transfer to a CU of their preference. Why stay in the megabanks? **The State Legislature should also**

declare canceled, in such bail-in event, all credit card and mortgage debt owed by Texas residents to all such megabanks involved in any such bail-in.

<https://2012patriot.wordpress.com/2012/04/21/iceland-forgives-mortgage-debt-for-the-population>

Texans must also have their national Congressmen and Senators working for the objectives stated in this presentation! An Audit the FED bill still hasn't yet been passed through Congress; due to elected officials accepting bribes. The spectacle of government by subornment is

chilling. We aren't at ease with Senator Cruz wife being associated with Goldman Sachs. Senator Cornyn has [millions](#) from the financial and medical lobbies. This Manhattan based corruption reaching into Texas via prominent politicians is disturbing enough to stampede a herd of wild peccaries down in Jim Hogg County.

The Industry Council on Tangible [Assets](#)---what is their view of the Texas gold and silver movement? Silver [Institute](#), what say your managers about it? Is it acceptable to the silver [users](#) on your roster? Would you prefer to see this issue submerged? This "altoparlante" (loudspeaker) won't be silenced!

Precious metals outside the Texas Bullion Depository but within State borders must be granted the same State protection from Federal nationalization, seizure or requisition, that the Texas State Gold Depository is endowed with. This will boost the prospects for more metal to be placed on deposit in the new gold depository. The need for such a measure is exceptionally poignant considering that all precious metals in the possession of the United States Treasury and the Federal Reserve System have at all times been available for the price suppression schemes of Wall Street [financiers](#). If the reader visits only one link, this is it! That's what happened with silver concentrated into the U.S. Treasury due to the momentous Silver Purchase Act of 1934, which drove China off its centuries old silver standard currency as of November 3, 1935, and also with the former

165 million ounce strategic military silver reserve, started by legislation in 1970 at the end of the Treasury silver auctions (“managed giveaways”) staged by the General Services Administration on behalf of the thieving Silver Users Association, which pilfering SUA [cited](#) yours truly in January 2006. The details of the silver auctions to the grasping silver users were finely detailed in “The Silver [Raiders](#),” released in September 2003. We had until 2001, a strategic national silver stockpile set aside for military technology purposes; however, Defense Secretaries gradually released, with the complicity of Congress and the White House, all of it, for price suppression. The silver was fed into the market precisely at moments when the most damage could be done to the silver price! The Silver Users Association will be displeased if silver bullion/coin starts accumulating in the new Texas Bullion Depository---

The Silver Users
Association

James Avery Craftsman, a jewelry enterprise majoring in sterling silver---and highly likely far more profitable dollar for dollar than silver miners---is based in Kerrville, Texas. This company is a [member](#) of the Silver Users Association. Will Avery [Craftsman](#) start nagging their State Senator Troy Fraser

and their State Representative Andrew Murr whining about how silver is being aggregated in the Texas Bullion Depository, and that as a morally superior proposition they should be able to lay claim to it for 71 cents an ounce?

(Image posted at Silver Investor in [October](#) 2004)
He does resemble "Big Tex" at the State Fair in Dallas!

On September 1, 1983, Georgia Democrat Congressman Larry McDonald, an opponent of draining any silver from the military defense stockpile, was shot down by a Russian fighter over Sakhalin Island. Secretary of State George P. Shultz, Pilgrims Society member and silver price suppressor, ran the State Department which arranged for McDonald to be diverted onto Korean Airlines flight 007 subsequently featuring 269 fatalities. McDonald wanted [forbidden](#) goals--- to have America exit the United Nations, to have America's gold audited annually and he was a critic of the Trilateral Commission, apparently unbeknownst to McDonald, a top Pilgrims Society front (read on friends). Shultz during 1972-1974 paved the way as Treasury Secretary for his successor, William Simon (Pilgrims Society), to bomb gold down from \$200 to \$105. Shultz and Paul Volcker (Pilgrims Society) supported the Nixon (Pilgrims Society) move to [cease](#) gold payments to foreign dollar holders. Nixon as of March 24, 1969, accepted The Pilgrims invitation to serve as their honorary President; following that, he banned foreign dollar holders, notably the French, from converting dollars to Treasury gold and he additionally assassinated precious metals by creating the Cost of Living Council which capped domestically mined silver at \$1.61 the ounce. Volcker once said that if the U.S. Government didn't hold gold at \$35 the ounce, it would fall to \$5! Will Volcker offer to join a board of advisors to the Texas Bullion Depository? Better to have a common shoplifter! Shultz later became top advisor to JP Morgan Chase and a director of major companies like Bechtel and several deeply gouging Pharma-Medical interests.

Volcker was in The Pilgrims 1980 roster, issued annually to members only every January concomitant with their annual meeting; that was exactly when Volcker and Lewis T. Preston Jr. of J.P. Morgan & Company (Pilgrims Society, married into the Pulitzer newspaper family) along with William Simon (already cited) delivered the coup de grace against the Hunt-Arab silver play---

Simon was the lead COMEX Governor crushing the Hunt-Arab silver play in January 1980, described in depth (18,187 words) at Silver [Squelchers](#) #10 released in January 2015. In June 1981, Congressman McDonald argued before the [House](#) Seapower and Strategic and Critical Materials Subcommittee that the remaining (as of that time) 139.5 million silver ounce reserve stockpile not be subjected to additional silver reduction; his notions were disfavored by the Money Power

(“Pilgrims Society London and New York”). It would be best if neither Congress nor the President could lead us into war absent the consent of two-thirds of the members of all the State legislatures. “The President of the United States continues to be elected an honorary member” (page 141, “The Pilgrims of the United States,” short run book, 2003). The USA President already issued hellish Executive Orders seizing gold and silver from the public (#6102 and #6814) after being on an 11 day cruise in February 1933 on a yacht owned by Pilgrims Society member Vincent Astor, a director of the silver suppressing Chase National Bank; so all they need do is jerk the strings of any President; or have him rubbed out, like JFK most likely was regarding his EO #11110. That EO was on June 4, 1963, and Treasury Secretary Douglas Dillon ignored it. Dillon, a second generation member, was on The Pilgrims executive committee by the 1969 leaked roster and remained on it for over 30 years; he was a Chase Manhattan Bank director and his daughter became Princess Joan of Luxembourg---

Among the best known voices in silver, Theodore Butler maintains that JPMorganChase has accumulated at least [500](#) million ounces of physical silver. That stockpile, if it's there, **should be the sole source of a renewed United States Strategic Silver Stockpile.**

Gold and silver price antagonist William Simon, Pilgrims Society member and Treasury Secretary, married Carol Girard, of the same old-line Pennsylvania family of Stephen Girard, in his time the wealthiest man in America, known British collaborator, who was the main domestic power in the first United States Bank (1791-1811) and forerunner of the Federal Reserve System! Financial chronicler Gustavus Myers [said](#) of Girard, "His every movement bred fear; his slightest word could bring ruin to anyone who dared oppose his purposes; no poor man ever came full handed from his presence." Simon

was on the board of the International Monetary Fund, Citigroup, New York Hospital, vaccine peddler Johnson & Johnson, Power Corporation of Canada, Geostar Corporation, United Technologies, Halliburton, Xerox, National Commission on Supplies & Shortages, Kissinger Associates, World Bank, Asian Development Bank and dozens of other entities; he [bought](#) the Six Flags Over Texas Amusement Park in Arlington for \$350 million in cash in 1987; (it's OK for Pilgrims Society members to deal in cash!); see the report on "Hell 666" Simon, "Treasury Secretary [Lies](#) About Gold," released in July 2010. According to the [Australian](#) League of Rights, "Simon represents *the most powerful group of international finance operators*," naturally so, having been a member of the Pilgrims Society which exists to "seize" and "[absorb](#)" wealth (see page 557 of the Review of Reviews, May 1902)! Spider sinister William Simon, globalist Pilgrims Society member who "seized" and "absorbed" wealth and blocked gold and silver price rises---would have messed a squealing worm over the Texas Bullion Depository! Simon's motto should have been, in response to an inquiry as to his legion of financial victim's whereabouts---

**"PROBABLY STILL AT THE BOTTOM OF THE CREEK WHERE I
LEFT HIM."**

(*"Arrowhead"* 1953 movie)

PILL-GRAMS!

They foist Pharma pills/[vaccines](#) on Americans and ripoff countless grams of gold & silver!

**Simon promised some Senators a Fort Knox inspection tour
and then reneged!
United States gold is for Pilgrims Society members, not for the
vast public!**

Texas legislators should seriously consider a bill to probe the activities of the Federal Reserve Bank of Dallas, inasmuch as it's the Texas branch office of the monetary nightmare that has sent the entire nation into skidding standard of living for most. It's well known that ex president of the Dallas Fed, Richard [Fisher](#), expressed interest in gold on his own behalf. He came from the Brown Brothers Harriman interests, one of the select old line hereditary interests quietly owning the Federal Reserve System, which does to this country what a large nest of webworms does to a magnificent old tree. Current president of the Dallas [FED](#) was with Goldman Sachs

for 23 years. Robert Kaplan is co-chair of the [Draper](#) Richards Kaplan Foundation with William H. Draper III, son of a confirmed Pilgrims Society member who was a major general, Ambassador to NATO and chairman of Mexican Light & Power. Lawmakers in Austin should call for full audit of the entire FED system. Texas legislators additionally should consider a bill banning members of the Texas Legislature, the office of the Governor, the State Supreme Court and lower state courts and other high State offices, as well as trustees or regents of Texas State universities, from holding any such positions if they are members of synthetic money, globalist racketeering groups, the most visible of which would include the Council on Foreign Relations; a ban on British activist Rhodes Scholars from being State office holders additionally is very needed! Texas legislators should pass a resolution condemning the 17th Amendment, which removed control over national Senators from the State legislatures and delivered it to the Wall Street finance community! This was [explained](#) in “Why Silver Price Fixing Lawsuits Always Get Trashed,” released in February 2015.

The Texas owned gold is actually owned by UTIMCO, the University of Texas Investment Management Company, and is purported to be 501,836 ounces which in turn is purported to be stored in vaults at HSBC Bank New York. This is the old Hong Kong & Shanghai Banking Corporation which became Britain's main opium and silver "trading" bank for China in the 1800s. This is the same overshadowing megabank that never sent any process server to call on me after I released "Silver Users & [Opium](#)" in March 2004. Former Obama Attorney General Eric Holder's Justice Department did "[favors](#)" for HSBC over its enormous money laundering operations. Patrick J. Burke is CEO of HSBC New York, subsidiary of the London bank run by Douglas Flint. Both men are likely as top megabankers to be members of The Pilgrims Society, a group with twin branches in London and New York which links America directly to Old World tyranny and holds the management reins of better known globalist organizations. A

quote from James Garner as Luther Sledge in “A Man Called [Sledge](#)” 1970 fits the HSBC gold situation---

“Now we’re going in there, and we’re coming out with that gold!”

The best known confirmed example in Texas of a Pilgrims member is Houstonian James Addison Baker III who as Treasury Secretary (1985-1988) suppressed precious metals prices, which suppression is considered critically important by The Pilgrims organization to give an aura of value to Federal Reserve “dollars.” There was a blip up in silver prices due to the S & L fiasco in Ohio, Texas and elsewhere, and it’s tough to think the Treasury Secretary wasn’t involved in managing prices back down. Baker later became Secretary of State, another post in which he was in position to suppress gold and silver prices such as in relations with Mexico, Peru, Canada, Poland, Australia, Argentina, Bolivia, South Africa and other silver mining nations. Let me provide a small capsule of what this Pilgrims Society does, inasmuch as Mister Burke is sitting on the UTIMCO (Texas) gold in Manhattan! Baker is the lead trustee in the Howard Hughes Medical Institute which has an endowment of \$18.2 billion and works to help Big Pharma, Big Hospitals and Big Medicine drain away ever more middle class wealth, until we are returned to serfdom! Kissinger, a Pilgrims vice president, conferring with fellow member Baker and was likely suggesting to Herr Kissinger additional measures by which The Pilgrims Society can deliver more pulverizing calamities against middle class wealth ---

Baker at right with Alexander Haig (Pilgrims) at left with President Reagan (Pilgrims) with Caspar Weinberger (Pilgrims) pointing. As Defense Secretary Weinberger drained the former United States Strategic Stockpile of 24,435,000 silver ounces for price suppression. His ancestry was Jewish but he became an [Episcopalian](#) to gain status in The Pilgrims Society, which is Anglican/Episcopalian dominated, with the Royal family its sponsors, who are Anglicans!

Baker received the Alexander Hamilton Award from the Treasury. Hamilton's father in law was Philip Schuyler and his mother in law was Catherine Van Rensselaer Schuyler. The Schuylers and the Van Rensselaers both held enormous

landed estates from Dutch colonial times and after the British takeover of New Amsterdam and New Netherland in 1664 and renaming it New York City and Colony, the Dutch who pledged loyalty to the King of England were allowed to retain their full possessions. [Kiliaen](#) Van Rensselaer (1586-1643) was a diamond and pearl merchant and a lead founder of the sinister Dutch West India Company, dealing in slaves, rum, opium, spices (600% markups), cotton, tea, trade goods et cetera. Stephen Van Rensselaer's (1764-1839) wealth was rated in modern terms at \$101 [billion](#). Schuyler [Colfax](#) was a Congressman from 1855 to 1869 and Speaker of the House during 1863-1869 and was largely responsible for the Federal framework that forced Western territories who wanted to attain to statehood, to do so at the expense of surrender of large areas of their land---becoming Federal land! 954,000 square miles of Western land, including in Alaska, is Federal land due to these dynastic Pilgrims Society families! Schuyler Colfax was a spear carrier for the giant Union Pacific Railroad interests and was a Whig Party delegate in 1848, which party favored a central bank! The Schuyler dynasty intersected by marriage with other Pilgrims Society represented dynasties---the Livingstons, Van Schaicks, Bayards, Van Cortlandts, Roosevelts and more. Colfax (below right) was vice president in the Ulysses Grant administration (1869-1873) ---

Fast forward generations, the Schuylers and the Van Rensselaers are still working [together](#) in high finance. Nicholas Murray Butler, President of The Pilgrims New York from 1928 to 1946, married Susanna Schuyler, became president of Columbia University (formerly King's College) and helped Andrew Carnegie (Pilgrims Society) set up his one-worlder foundations. It was Carnegie who schemed the North American Union! The names Schuyler and Van Rensselaer recur in leaked lists of The Pilgrims. High finance operator Pierpont Morgan Hamilton, a perverse blending of two financially subversive lines and the addition of the dangerous

Pierpont Morgan family, was in the leaked list of The Pilgrims New York 1957! Warren Randolph Burgess, an heir of two old line colonial fortunes, Pilgrims Society member, was a Federal Reserve Bank of New York official and headed the American Bankers Association in World War II and became Ambassador to NATO---he married Helen Morgan [Hamilton](#)! There are numerous such examples of intertwined genealogies in the world's premier Secret Society! Dutch lineage is common in The Pilgrims New York branch, such as former Ambassador William Van Den Heuvel, who married into the Music Corporation of America fortune and became an investor in such far ranging enterprises as North Aegean Petroleum, Time Warner and United States Banknote Corporation (prints "money" for foreign central banks), and made this appalling [statement](#)---

"Resolved, the world would be better off had not the 13 colonies broken away from the British Empire."

Texas must not have any "outside firm" managing its upcoming State Bullion Depository connected to any such baleful elements! The Texas Bullion Depository must be available for routine and unhindered audit on an unannounced basis by for example, the mayors of any of the 20 biggest cities in Texas, and Texas centered personalities must do the selecting of the accounting firm, which must be headquartered in Texas. Major General Pierpont Morgan Hamilton, Order of the British Empire, also had old-line Dutch ancestry (Pierson family, Pilgrims Society) and was born in

pricey Tuxedo Park, New York, where many members reside to this moment---

The terms of the “bailout” (alleged bailout) loan arranged by FED chairman Paul Volcker, of the Dallas Hunt brothers after the orchestrated silver crash of January 1980 and events following, the Hunts were dispossessed of at least 59 million hard silver ounces by 1986. What role Baker played as to the disposition of that large silver hoard isn’t clear; but as Treasury Secretary from 1985 to 1988, it’s most likely he played a leading role in helping the former Hunt silver be dedicated to ongoing silver price suppression.

Howard Hughes, the loner financier who owned Trans World Airlines, was never a member of this shadow organization. We cite the example of Hughes to illustrate the financially dangerous nature of this British loyalist group. As a complete outsider Hughes had too much wealth and had to be broken. In the mid-1960s Hughes wanted to expand Trans World Airlines and he was provided a \$400 million loan by a financier consortium composed of “superstar banker” Frederic Brandi of Dillon, Read & Company and American South African Gold Trust, Gilbert Fitzhugh of Metropolitan Life, and David Rockefeller of the silver antagonistic Chase Manhattan Bank. Hughes owned 78.23% of TWA stock but was stripped of control due to the loan terms and as of 1966, Hughes interest was reduced to zero and he had to pay \$160 million in [court](#) imposed fines for “mismanagement.” Charles Tillinghast was installed as CEO of TWA. Brandi, Fitzhugh, Rockefeller and

Tillinghast names were all in the leaked 1969 Pilgrims New York roster.

Will Texas (UTIMCO) gold actually be transferred from HSBC Bank to a new depository in Texas? We shall see; however, if HSBC cannot produce it, it will be just “SOP” for this Pilgrims Society and the megabank won’t be prosecuted, it will be shielded by “Sir Uncle Sam, Knight of the [British](#) Empire” and the distraction of war with Russia, China, Iran and/or North Korea is always available if necessary. John Boyd [Carter](#) Jr. (1924-2004), a Reagan crony who held banking, real estate, oil and gas and cattle interests, was among the somewhat few Texas Pilgrims members. Carter founded Houston National Bank and was involved with Lehman Brothers, Sea Drilling Corporation and United States Synthetic Fuels Corporation and the Kleberg interests including the 825,000 acre King Ranch. Cattle is a \$10.5 billion per annum business in Texas! Texas citizens have been grievously damaged for over a century by the operations of this Pilgrims Society, including by the gold and silver [forfeiture](#) orders by the President in March 1933 and August 1934. Take care if you open this link as a 312 page documentary will appear detailing week by week from March 1933 into February 1937. Many “leading sites” in gold and silver have stated that only gold was taken and refuse to post corrections when shown how badly mistaken they are. I feel the public deserves accurate information and that truthful details should take precedence over bloated egos. Gilbert W. Fitzhugh, trustee of California Institute of Technology,

**descended from one of the First Families of Virginia Colony,
with considerable old English ancestry---**

Texas lawmakers must act to shield Texas residents from any Presidential Executive Order requiring them to surrender, under color of national emergency, their gold and silver to the USA Federal government. They did have a military silver stockpile in reserve for defense needs; it shouldn't have been touched; let those who drained it be on the hook for replacing it, and let all layers of government that need silver, source it only by free market means, not by despotic appeal to eminent domain! The Silver Users Association, current and past members, were gifted with most of that plundered silver. They should be liable for its replacement at open market prices!

THE UNIVERSITY OF TEXAS
INVESTMENT MANAGEMENT COMPANY

In fact, several members of the UTIMCO board are very prospective today as Pilgrims Society members, especially since it represents over \$37 [billion](#) and Pilgrims members show up where money is biggest. I say prospective, because they have the necessary characteristics for it. This group, which claims only to seek friendly relations between America and the United Kingdom, nevertheless finds it necessary to their “work” to maintain secrecy as to the identities of the majority of members. They do not post [rosters](#) to public view! Members of the UTIMCO board are appointed by the Board of Regents of the University of Texas, who are in turn appointed by the State Governor. Current chairman of the UT regents is Paul Foster of El Paso, who is a director of the El Paso branch of the Dallas Federal Reserve Bank! Already ***we see this sinister headwind against precious metals in Texas!*** In the case of UTIMCO, this board insists that if Texas gold, actually

UTIMCO gold, is “repatriated” to Texas, that the gold remain part of the COMEX system! No roster since 1980 has been accessed by outsiders---

Wallace [Hall](#) Jr., a financier, is a Regent of the UT system and he is an Episcopalian, as I [detailed](#) the Episcopalian (Anglican Church of England) connection in “Exposed---The Elites Who Control Silver and the World,” not rank and file, but wealthy Episcopalians. Dallas resident H. Lee [Hobson](#), a UTIMCO director, is also an Episcopalian. James Baker III, mentioned above, is an Episcopalian. We aren’t out to make this too much a religious review, however. Hobson is a member of the Council on Foreign Relations and its subsidiary, the Dallas Committee on Foreign Relations. The CFR itself is a tightly

controlled subsidiary of The Pilgrims Society, whose influence circles encompass many better known one-worlder warmongering groups. [Houston](#) has a Committee on Foreign Relations and it must be assumed that the Dallas and Houston Committees both oppose all moves towards boosting the monetary use of precious metals. The HCFR has Harry Collins, Houston exec for Barclays Bank, as a member; Barclays has a huge history as a silver suppressor.

This group is a virtual twin to the DCFR and can be anticipated to oppose precious metals remonetization anywhere; the head of Texas Capital Bank [chairs](#) this thing---

Connecting North Texas with the World

Same [situation](#) in Austin---

WORLD
AFFAIRS
COUNCIL
AUSTIN

Member, World Affairs Councils of America

Same situation in San Antonio; JP MorganChase is a [member](#)--

UTIMCO has a director named Ray Rothrock, as if to suggest Rothschild & Rockefeller! The name Rothschild has nothing to do with any “child,” rather the name means “Red Shield,” as in “schild,” a German word. Perhaps coincidentally Ray is involved with a company named Redseal, which happens to have as its logo somewhat of a red [shield](#)! Rothrock is a member of the Corporation of Massachusetts Institute of Technology, controlled by wealthy multi-generational Boston families with strong Pilgrims Society representation. There is an outside chance Rothrock is a member meaning he lacks some characteristics typical of members. Hobson is more prospective as a Pilgrims member; he may even be on its waiting list for membership. He started with Goldman Sachs,

an organization extremely [antagonistic](#) towards precious metals! Hobson is on the board of Children's Health System of Texas---large scale vaccine pushers! How does causing autism help children's health? UTIMCO has a director named Ray Nixon, suggestive of Richard Nixon and they might be distantly related. Joseph Ray Nixon Jr. has an extensive list of finance [connections](#) and one of those is with MassMutual, founded by a descendant of a man prominent in Massachusetts Bay Colony. This is a Pilgrims Society interest. It's possible Nixon is a member. He isn't in the CFR roster.

Kyle Bass is the best known name on the UTIMCO board and likely the wealthiest of the lot. I haven't found him to be closely related to the Fort Worth Bass family; billionaire Robert Bass is a Rockefeller University trustee and is prospective as a Pilgrims member. Kyle was with such Pilgrims Society investment banks as Legg Mason and Bear Stearns, named by Butler as the former big COMEX silver short; of course, Bass may have had nothing to do with that situation. Most people associated with such firms don't become Pilgrims Society members. Perhaps Bass will care to state if he is, or is not, a member! However, he runs something called the [Coalition](#) for Affordable Drugs, which may exist in Dallas at his Hayman Capital offices. This CFAD targets Pharma companies, including large ones, with short sales, then arranges to mount a court challenge to one or more of their patents (33 plus so far), so that is a big DQ against Kyle Bass for Pilgrims membership. Another DQ are his remarks on the Texas (UTIMCO) gold; the two minute

[video](#) is misleading at times, because the latest I've heard is that the physical ingots have not as of October 2016 arrived in Texas. There is also something alarming about the Kyle Bass admission that COMEX is a fractional reserve operation and that Bass stated---

“We conducted an audit, they kind of resisted our audit request on the front end and then they finally allowed us in and we did a random audit. We had like 1600 bars or something like that and we just wanted to see 20 or 30 of them and *they were all over the place in different venues in the vault they weren't segregated* so yeah it's an interesting concept” (laughter) “the exchange is a *fractional reserve exchange* and they think price will solve everything.”

We won't dabble in evaluating the discrepancy between the earlier figure of 501,836 ounces of gold divided by 1600 bars, which yields the improbable average of 313.6475 ounces per ingot. His math may have been fuzzy. But this matter of non-segregated gold begs the question of how exactly will all this UTIMCO gold be returned? It's ridiculous that the State of Texas didn't insist on immediate return of the gold as soon as Governor Abbott signed the Texas Bullion Depository Act. The gold could have been placed in a secure basement in Austin and guarded by Texas National Guard units until time for transfer into the completed Bullion Depository. As it stands, don't anyone seriously expect the purported ("alleged") UTIMCO gold will be returned on completion of the Texas vault facility. Or maybe the slippery New Yorkers will tell Texas to wait like Germany was told to wait (until new mining production can replace the gold sent out on leasing, derivative swap daisy chains for price suppression by the Pilgrims Society members running HSBC!) Most likely either the gold is almost all gone, or mostly gone. In which case if return is accomplished, it could mean that other entities, organizations or persons who haven't yet demanded return of gold, will get the royal screw job.

HSBC is a hellhole of a place for anyone's gold to be stored!

An October 18, 2016 item from [Reuters](#) noted Deutsche Bank entered into a \$38 million settlement for rigging prices in the silver market; the German bank has implicated HSBC in suppressing silver quotes, and legal discovery has been given a rare green light to proceed. Some years ago, approximately

8 to 12 years ago, HSBC USA was on the Silver Users Association roster---a group whose members always think silver prices are too high! In 1998 Bankers [Trust](#) of New York, a firm riddled with Pilgrims Society members, merged with Deutsche Bank. CEO of Deutsche Bank is [Britisher](#), Londoner John Cryan, whose finance career began with S.G. Warburg & Company (Pilgrims Society) in The City of London. Cryan is almost certainly another member.

Of COMEX Kyle Bass [noted](#) at the time he examined the situation had \$2.7 billion in deliverable gold related to \$80 billion in open interest. Shaky structures don't endure permanently. Texans don't want any more involvement in this rigged COMEX rodeo---it's more crooked than the Brazos River, and most folks don't want to eat their laying hens. Skunk road kill smells better than this.

In another [interview](#) Bass remarked, "I'm perplexed as to why gold is as low as it is but I don't have a great answer for you." It's low because the titans of the financial community have a secret society called The Pilgrims and they conspire to rig precious metals prices low so as to suggest strength to the Federal Reserve dollar, which is the exploitative device being fed off of by the wealthy old-line, mostly Episcopalian (Anglican Church of England) families back of the FED and represented in The Pilgrims Society! Interested parties may care to read "Who [Controls](#) the Gold Stealing New York Fed Bank" released in January 2014 for abundant documentation. Bass bought 20 million [nickels](#) as in five cent pieces, common

dates, amounting to \$1 million face value, for the sum of \$1 million. It should be some time before room is made available in the Texas Bullion Depository for those due to their humble metallic contents.

The Latin motto means “Here And Everywhere,” an allusion to their holdings and influence. The lion represents the British Empire (Commonwealth) and the eagle the United States. Atop the image was situated a depiction of some of the multiple industries the founding members in 1902-1903 controlled---railroads, coal mining, iron and steel, ocean going vessels and transocean freight, bicycles, automobiles, bridge construction, engineering, fabric industries and more. After www.silverstealers.net went up in January 2011, they finally posted a site the following June, www.pilgrimsociety.org and over five years later, have still refused to post membership rosters to public view, despite insisting that their goal is only to “promote friendship between the United States and the United Kingdom.” More like, the New York branch is the direct focal point for Old World tyranny over America and that the British still view us as a Crown colony and intend to fully recapture us, hence the gun control drive. **The Society does [not approve](#) of yours truly!**

<http://abovethelaw.com/2015/06/dont-mess-with-texas-does-not-supersede-the-supremacy-clause> NY lawyer condemns the Texas Bullion Depository and branded Governor Greg Abbott “unbelievably stupid” and chided Texas legislators for wanting the gold to be stored in Texas, noting that Texas isn’t a foreign country---well you vomit marinated, molded over pus bag riddled with tapeworms---Texas doesn’t have to be a foreign nation to want to store the gold on its own soil! Attorney Joe [Patrice](#) was with Cleary, Gottlieb, Steen & Hamilton as of 2001. [Wiki](#) states that a famous

lawyer with this firm was George Wildman Ball, who happened to be a Pilgrims Society member on the Bilderberg steering committee overseeing the red herring group for the older and vastly superior organization and who delivered a speech to the International Chamber of Commerce in [London](#) on October 18, 1967 entitled, “Cosmocorp---The Importance of Being Stateless” and who provided the introduction to fellow Pilgrims Society member Richard Eells 1972 book, “Global Corporations---The Emerging System of World Economic Power.” This law firm was counsel to the Government of Indonesia in 2002 for a \$750 million Eurobond offering; Sir Siegmund Warburg (Pilgrims Society London; of the Warburg Federal Reserve family), who had as his friends “some of the most powerful men in the world,” (Business Week, November 23, 1974) was the creator of the Eurobond market. Joe Patrice is a low level flunky only and his gist was haggling for the supremacy of the New York money mob over Texas!

The UTIMCO director I find most interesting is retired Admiral William H. McRaven, who in July 2014 became Chancellor of the University of Texas System with its 221,000 students. He wasn't born in Texas; wouldn't it be more appropriate to have a native Texan head the great university? He has credentials suggesting he is most likely a member of The Pilgrims Society. For one, they have had many Admirals and Generals as members since their founding. Two, McRaven is a [director](#) of The Pilgrims most important USA subsidiary, the Council on Foreign Relations. All CFR influence is 100% Pilgrims Society

influence so; while most CFR members aren't Pilgrims (over 85% aren't), nevertheless, the effect on the country is the same---globalism, warfare, more debt, decreased civil liberties, diminishing privacy, drift towards universal compulsory vaccines (dozens annually), dwindling gun ownership rights, calls for Web censorship and more. The fact that McRaven is a retired Admiral, a CFR director, Chancellor of the enormous UT System and a director of the \$37 billion plus UTIMCO endowment with its significant gold holdings---all suggest he's very likely a member of The Pilgrims Society but certainly not an inner circle member. In fact, UTIMCO represents also the Texas A & M University, another large scale university.

The next image shows McRaven hob-nobbing (like two hobgoblins) with Secretary of State John Kerry, Pilgrims Society and a Bonesman from his earlier days at Yale University. Kerry is reported to be worth around \$200 million

and his wife, Teresa Heinz Kerry, worth north of a billion. Henry J. Heinz II (1908-1987), second generation Pilgrims Society member, was the father in law of Teresa Heinz. Wiki mentions that Heinz II of the well known agribusiness empire was on the Bilderberg steering committee, but made no mention of his Pilgrims Society activities. Heinz II was a Mellon Bank director and in all probability was in a second fiddle position relative to the much larger Mellon (Pilgrims) fortune and they're big enough to be inner circle. Senator John Heinz, son of Heinz II, was killed in a plane crash in 1991. Kerry was a Senator from Massachusetts (1985-2013) and if you look, 50 to 1 you'll find he "helped" the Silver Users Association. John Forbes Kerry has in his [ancestry](#) Chinese opium for silver "traders" and the wildly wealthy Dudley-Winthrop family of Massachusetts Bay Colony fame, and Pilgrims Society represented. This is the same old-line Dudley family from medieval England that has a descendant, Bill Dudley who is today president of the gold stealing, silver suppressing Federal Reserve Bank of New York. Bill Dudley is almost certainly a member of the Pilgrims Society; his genealogy and position flash in multicolored neon lights "Pilgrims Society!" These are the deep spooks that UTIMCO director McRaven, probably a Pilgrims member himself, runs with---

Mister McRaven, as a globalist internationalist one-worlder CFR member, should be ousted from his post as Chancellor of the UT System, and ousted from the UTIMCO board. His prestigious background is rendered bogus because he's a one-worlder. Any and all of the UTIMCO board members opposed to moving the gold to Texas should be ousted, and any and all UTIMCO directors who want this gold to remain part of the COMEX system must be ousted. Any and all regents of the UT System opposing return of this gold to Texas must be ousted, and any and all regents of the UT System insisting this gold remain part of the COMEX system must also be ousted/evicted; that is, if the Legislature and the Governor care to do what's best for Texas---because gold price shorting and globalism are not what's best for Texas! Next we discover that McRaven is opposed to "campus carry" in Second Amendment rights! No, students should be [disarmed](#) so a second Charles Whitman, revved up on some hideous psychiatric "medication," can come in and mow them down!

(Then the media ignores that the wonder drug caused the rampage!) What you want to bet this McRaven carries a weapon, because he feels his (elitist/globalist) life is of more value than that of any commoner? Yeah baby! Commoners could just be soaked in pitch and set ablaze to illuminate their chateaus! McRaven was awarded [both](#) the Navy Expert Rifleman Medal and the Navy Expert Pistol Shot Medal! A better idea of a rifleman is always [Lucas](#) McCain, no relation to warmonger Arizona politician John McCain, whose Navy Admiral father was in The Pilgrims 1969 list. To borrow John Wayne as Texas Ranger Jake Cutter in “The Comancheros” (1961) to rebut McRaven---“Texas needs every man and every gun!”

If I don't mention it a critic will lambaste me so; in May 2011, McRaven lead the group that achieved the death of Osama Bin Laden. But we must not be fooled by false patriotism; McRaven is a globalist and not just a CFR member, but a CFR director and being in its management, is most likely to be a Pilgrims Society member and therefore a believer in the perverse idea that we should be “recovered” by England. We have perpetual wars for perpetual “peace” and I wouldn't concur with McRaven's views on the story behind 9-11. Tom Kean, former New Jersey Governor, Pilgrims Society [member](#) chaired the 911 Commission that did what the Warren Commission did on the JFK assassination---hide the facts. Kean is a Roosevelt relative and FDR [allowed](#) the Japanese “sneak” attack on Pearl Harbor so we could enter World War Two to fight for Roosevelt's British senior partners to give

them excuse to start the United Nations! Then two FDR sons became Pilgrims members and a [daughter](#) in law! McRaven isn't likely to agree on Pearl Harbor either but why would he?

Globalists for McRaven; as a hero I'll take Audie Murphy from Farmersville Texas, who as an infantryman killed [240](#) German soldiers in World War II, and wounded and captured dozens more.

Glenn Hegar, Texas State Comptroller since 2014 whose office is supposed to oversee the Texas Bullion Depository, is a believer in gun [ownership](#) rights, to the contrary of McRaven, and it should be assumed that Hegar's views on the UTIMCO gold don't concur with those of McRaven. State Senator Lois [Kolkhorst](#), Republican from Brenham and cosponsor of the Bullion Depository bill with Capriglione, is a member of the National Rifle Association. The Houston [Chronicle](#) of May 26,

2015 quoted Kolkhorst---“New York will hate this.” Now, can Kolkhorst, Capriglione and Governor Abbott get on with the business of purifying the presently perverse UTIMCO board?

Just thinking about this McRaven character is akin to being “cat raked,” a slave punishment in old plantation times in which the victim’s back was laid open by the claws of an angry tomcat being dragged across it! Except in his case, it would be a bobcat! In 1984 part of a tree fell on Greg Abbott, which left him in a wheelchair. We can certainly think of other more deserving persons who lamentably, cannot take his place in that accident. Fire ants aren’t a native Texas species; neither are these sorry globalists who should be exiled from Texas. Edgar Allen Poe would have been fearful of this McRaven! And the words of Shakespeare come to mind---

“Tis now the witching time of night and hell itself breathes out contagion to this world.”

Foreign Policy Magazine, globalist hack journalists, awarded McRaven its “Top 100 Global Thinkers Award,” gee! I submit that this man has no business heading a great Texas institution because as a globalist, why continue to have a Texas at all besides in future history books? Doesn’t he view Texas only as “zone so-and-so” in a schemed British controlled North American Union? Will McRaven suggest an All Seeing Eye atop a pyramid sculpture in the foyer of the Depository, if he and his pals get their way as to continued linkage of the gold to COMEX, and the Depository run by an “outside firm?”

To what lengths does this profound gold swindle go? McRaven is on the Defense Innovation Advisory [Board](#) with Amazon titan Jeff Bezos, who is most likely a Pilgrims Society member, as he's too big a wheel to not be. Mc prefix names are often unusual, but the "raven" in his handle is just too much; it's suggestive of the old "Dark Shadows" TV series. With his views and his position, he fits quite appropriately into this *hellscape of festering monetary subversion*.

The lure for having an outside firm come in is of course to save the Texas Treasury the funds needed to launch the Depository; however, caution in selection is paramount. The Texas Tribune, October 30, 2015, mentioned this unsettling item---

"Along with ideas on the depository's design, Hegar requested thoughts on whether the state should vie for membership in the Chicago Mercantile Exchange's COMEX platform, where gold futures contracts are traded. The question is crucial to whether Texas will be able to achieve a widely reported declaration by Abbott's office in June that Texas would "repatriate \$1 billion of gold bullion from the Federal Reserve in New York to Texas."

Glenn Hegar best beware of input of "requested thoughts" from self serving interests who are in this network exerting to impede gold price advances!

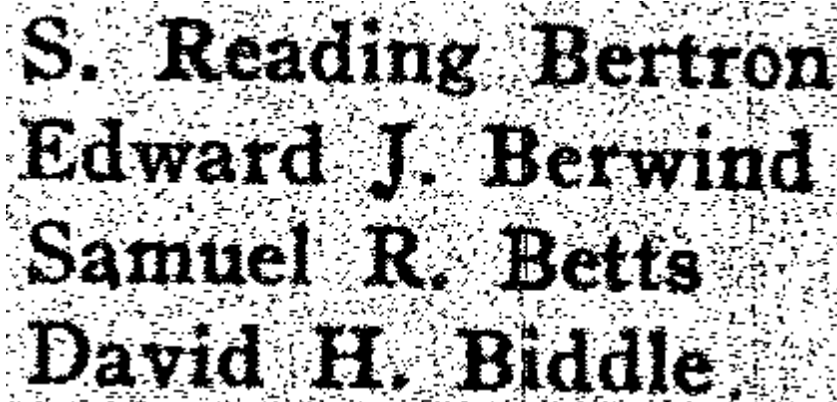

The Texas Legislature should pass a resolution demanding a Congressional probe into The Pilgrims [Society](#)! That would stir up more hornets than a Federal Reserve and Fort Knox audit trebled!

Globalists, gun grabbers, vaccine pushers, one worlders, internationalists, interventionists, warmongers and monetary subversion activists arguing to maintain COMEX control over this gold! They are the human (?) counterparts to the deadly brain eating [amoeba](#) known to be present in many Texas lakes.

You don't need to point the high powered solar telescope at the McDonald Observatory in West Texas atop the 6,791 foot tall Mount Locke in Jeff Davis County, towards Austin, to see that carpetbaggers are descending on Texas from up North, intending to plunder gold again!

Bruce [Zimmerman](#) was till recently chief investment officer of UTIMCO. Previously he held significant positions in such Pilgrims Society entities as Citigroup and JP Morgan Chase. However, Zimmerman [resigned](#) from UTIMCO in October 2016. Could he have resigned in protest over the Texas Bullion Depository being born? Zimmerman is a Duke University graduate, strongly associated with tobacco and electric power magnate Benjamin Duke (1855-1929, Pilgrims Society), whose daughter married into the Drexel-[Biddle](#) line (Pilgrims Society), strongly associated with Nicholas Biddle, the arch-criminal who was president of the second United

States Bank. After President Jackson forced the Bank's closure in 1836, Biddle started illicitly buying land in Pennsylvania with worthless banknotes residual from its operation, supremely conning those who accepted them. From The Pilgrims 1924 New York excerpt; Bertron was a major investment banker at 40 Wall Street; Berwind was the world's biggest coal operator and a director of J.P. Morgan & Company and many other interests; Betts [descended](#) from a Federal judge (term 1826-1867) in the U.S. District Court for the Southern District of New York---where silver antitrust lawsuits are consistently squelched! Nicholas Biddle would agree that the gold shouldn't be moved to Texas!

S. Reading Bertron
Edward J. Berwind
Samuel R. Betts
David H. Biddle.

The Biddle line intersected with that of Benjamin Rush, "father of American psychiatry," who personally [murdered](#) at least 330 victims, most by bleeding them out but some by mercury poisoning! To this day the seditious American Psychiatric Association, which should be aggressively legislated against, uses an artwork image of Rush for their monthly journal, which is fit only to line the bottom of bird cages---

Image located at <http://image.slideshare>

In 1793 Rush was forced out of the Philadelphia College of Physicians but in 1797, President Adams, who backed the first United States Bank, appointed Rush treasurer of the U.S. Mint! The second President Adams (1825-1829) connived with Andrew Jackson's enemies to steal the election---Jackson won the popular vote---and Adams backed the second United States Bank (central bank). Another Adams family member became a Union Pacific Railroad director later in the 19th century and Charles Francis [Adams IV](#), great, great grandson

of the second President Adams, became chairman of defense contracting giant Raytheon; his name was in The Pilgrims leaked 1969, 1974 and 1980 rosters. John R. Drexel IV, descended from the original mentor of J.P. Morgan Senior, and interested in global seafloor mineral wealth, has been noted in recent years on The Pilgrims U.S. executive committee. Notice that families involved with central banks become very wealthy! His wife? Jacqueline Astor of a \$100 billion plus (in Manhattan alone) contemporary fortune!

The Texas [Tribune](#) of October 30, 2015, front page, featured these alarming remarks---

“The new law does not require UTIMCO to move its gold to the state’s depository. UTIMCO has said it will only do so under two conditions: that it cost less to store the gold in Texas than it does in New York and that the depository is a member of COMEX. The Chicago Mercantile Exchange, also known as the CME Group, did not respond to a request for comment. Hegar’s office has not reached out to the exchange, Willis said. Several companies told Hegar they were skeptical that the Texas depository could ever gain membership in COMEX, which currently requires that all its licensed gold depositories be located within 150 miles of New York City. “Texas may be too far outside that mileage parameter, unless the State of Texas can make provisions for exceptions with these organizations,” a U.S. subsidiary of Switzerland-based Loomis International wrote. Addison-based Dillon Gage, which runs private precious metal depositories in Delaware and Toronto, noted that **CME membership would give the Texas depository a “certain reputational weight”** and predicted that the CME would likely waive its geographic restrictions “for a state-run depository.” Some warned that Texas taking on UTIMCO’s gold might not be a good deal for UTIMCO. **“The State of Texas should carefully consider the consequences of moving the gold bullion to Texas,”** Delaware Depository, a precious metals dealer, wrote. “The cost of

relocation, internal cost of storage, and negative impact on liquidity may greatly exceed the storage savings.” A possible compromise solution came from a U.S. subsidiary of Hong Kong-based logistics and storage firm Malca-Amit, though Texas lawmakers aren’t likely to welcome it. “Should the state of Texas wish to establish a COMEX gold vault, in order to expedite the process, Malca-Amit would **happily operate that vault within NYC on behalf of Texas,**” the company wrote.”

The Texas Bullion Depository must never become a member of the COMEX and based on the bill, wouldn’t qualify for COMEX membership as supreme dishonesty is required! Loomis International uses the familiar one-worlder pyramid image---

As a counter proposal, suppose Malca-Amit execs come to Texas and dance barefoot in an expansive patch of goat head stickers while Texas fiddlers play?

The Texas gold would be better stored in an East Texas salt dome than to go with the proposals of these characters! Malca Amit has vault facilities in Singapore. Do you know how fast China could destroy and/or take over Singapore? What would be the accessibility of gold, platinum, diamonds be in such eventuality? How can people be conned to think that the more distant their precious metals are, the more secure they become? It's nauseating to see State officials being razzed by phony deals. Con men belong in the old [Presidio](#) County Jail---

Judge Roy [Bean](#) (1825-1903) of Val Verde County, who was known as "the law west of the Pecos" would have looked askance at these characters and thought no better of them than of General Antonio Lopez de Santa Anna who pulverized the Alamo and massacred 342 Texas patriots at Goliad three weeks later!

Glenn Hegar is Texas Comptroller of Public Accounts ([short video](#)) and a special election was held to take his seat in the Texas Legislature when he became Comptroller in 2014. Taking his place was Lois Kolkhorst, who partnered with Capriglione in the Bullion Depository bill. Brink's has also offered to handle storage of this gold hoard. The chairman of Brinks is a [trustee](#) of Colgate University, of the Colgate-Palmolive fortune, with various Pilgrims Society members associated with its founding such as financier Colgate Hoyt of 55 Wall Street who married General Sherman's niece, the same General Sherman who destroyed Georgia. Chairman of the Senate Finance Committee was Senator John [Sherman](#) of Ohio (General Sherman's brother), who pushed the Coinage Act of 1873, demonetizing silver and ruining the finances of at least several million people, whose mortgages were foreclosed as they couldn't make payment in silver! Colgate Hoyt was a director of Union Pacific and Northern Pacific Railroads and his daughter Elizabeth Sherman Hoyt married

Sir Ronald Lindsay (Pilgrims), the British Ambassador to America. John D. Rockefeller Jr. (Pilgrims as of 1907) was a [pallbearer](#) for Colgate Hoyt; you should see who was listed [next](#) to him in The Pilgrims 1914 roster! One of these Colgate relations was a [founder](#) of the New York Gold Exchange and self-servingly “helped” Federal finances during the Panic of 1873---silver demonetization---which these interests were part of causing! I submit that such historical background makes Brinks less than appealing. They’d be too quick to hand over the gold to the Treasury Department five minutes after an Executive Order issued at 3 AM Eastern time. Brinks [insisted](#) that it has secure branches in Texas so a new building is unnecessary. Whoops! Only a Texas company can be 100% trusted by Texans. Brinks could say they got an order from the Treasury Department to immediately move the gold to D.C. and quote the grinning jackass TV newscaster who chuckled “Federal law trumps State law!” What need for State laws then?

“The consequences of moving gold bullion to Texas”---those are---WHAT? The Money Power’s price suppression of gold will end sooner? They make it sound as if bringing the gold to Texas would occasion another [Galveston](#) disaster like the 1900 event which caused over 6,000 fatalities. Any day now Texans may be subjected to obnoxious noises from the Federal Ripoff Bank of Dallas that they also will be “happy” to store the Texas gold. “One storage area could be in North Texas” we read in a Fort Worth Star Telegram [blurb](#); so, if in North Texas, why not save the expense of construction and have the Dallas

Fed Bank “host” the gold? Sure, toss your pet dog to the wolves! Pirate Jean Lafitte once resided at Galveston and inasmuch as he helped Andrew Jackson defeat the British invasion at New Orleans in 1815, we’d think better of [Lafitte](#) than the fraudster squad at the Dallas FED bank, which is the Lee Harvey Oswald of Texas in monetary affairs, so to speak!

The aforementioned article noted that Texas Precious Metals (top rated by Better Business [Bureau](#)) offered to build a 46,000 square foot “independent depository” most likely near their HQ in Shiner, Texas, between Houston and San Antonio. Another [item](#) mentions that a total of 14 companies have offered to construct the State Depository; no specific names. You are tempted to think that finding out might be like turning over a rock and seeing a centipede squirming. Relatives of people managing the Depository must receive special protection and be highly cautious about their movements and those of their children. There should be notable penalties for anyone interfering with depositors legitimate business.

What’s going on all gets down to one big fact---***The Pilgrims Society and its influence circles over these United States always acts to prevent capital formation on the part of all outsiders!*** Naturally they have nightmares about Texans awakening to gold and silver and the same thing taking root in other states! The drift from UTIMCO is that the majority of its board members want the gold to be available for COMEX price suppression; now we behold a veritable “BASKET OF DEPLORABLES” arguing to keep UTIMCO gold in the strangling

tendrils of COMEX clutches. Somebody needs to hop on a bottle cap and drift out to sea---after contracting tularemia and lyme disease from a tick in the East Texas Piney Woods, taking a puss caterpillar [sting](#) and being rump bitten by an alligator [snapping](#) turtle! William P. Miller II, a prospective Pilgrims Society member, is a CME Group (owns COMEX) director and is [connected](#) to the Rockefeller Foundation.

Even a flea bitten range bum with Red Man chewing tobacco in his hip pocket from the 350,000 acre 6666 [Ranch](#) in the Panhandle in West Texas could see the attempted fraud of the forces working to influence the Texas Bullion Depository. Even his horse on loco weed could see it! This chuck wagon has to be cleaned up! No Tony Lama [brand](#) engraved West Texas boots for undesirables! Let 'em nap in a patch of bull nettle!

Reading this 302 word quotation from the Texas Tribune induces a queasy sensation. Gold needs no reputational weight from COMEX nor does the great State of Texas; especially since so many recognize it as the CRIMEX. Notice the UTIMCO board, or at least evidently a majority of its members, probably above all this McRaven, who comes off like a spooky benighted spirit from an Edgar Allan Poe nightmare spreading bedeviling enchantment in a perverse 360 degree radius for hundreds of miles, are insisting this gold remain part of the (gold suppressing) COMEX system! They mention consequences to Texas if the gold is moved to Texas; more like consequences to the gold suppressors of finally losing control.

About Malca-Amit, may we ask, do they have their staff instructed in the “gravel maggots” self [defense](#) system? A 2014 news item reported that a pink diamond valued at \$50 million, owned by a South African dealer, “[vanished](#) from storage facility” in Geneva----operated by----Malca-Amit. The diamond’s owner branded Malca-Amit “a bunch of [thieves](#).” Malca-Amit insisted the diamond was worth only \$5 million---are they chiselers? And they want to “take care of” the UTIMCO gold. A [trade](#) publication showed Malca-Amit in a better light; however, they are an advertiser. The South African dealer posted a [rebuttal](#) to the Malca-Amit claims as to their choir boy purity status. I haven’t seen any resolution news on this situation or any news past 2014; best that Texas decline business with MA including if the controversy is resolved to their favor. It also suggests that Texans should protest the dumb USA foreign aid “programs!” Sylla Diamond site says “Warning Red [Flagged](#)” about Malca Amit. The respondent insists the gem is worth ten percent of the complainant’s figure. It tempts the justifiably cynical to wonder if the respondent was the source years ago of the idea for the old flim-flam bilking swindle of fast food drink cups in which the cup could be filled to barely two-thirds capacity, yet consumers were told it was a full serving---

Shlomo Malca a VP of Malca Amit, was with [twenty](#) reps of Scotia Bank at the India International Gold Convention in 2013 and others from Barclays, JP Morgan, Citigroup, World Gold Council et al---antagonists of rising metals prices---were there. If the UTIMCO gold gets stored in Texas and without linkage to COMEX trickery, it will add to fundamentals pressuring for elevated gold prices! I don't see Malca-Amit as any ally of the citizens of Texas! They could point to many jewelers who are satisfied with them, but where monetized gold bullion is concerned, I strongly recommend "NO" to those who chide

Texas that its gold should be stored far away. Pirates, brigands and corsairs are still among us and they have more twists than a pretzel factory.

Even famed Texas killer John Wesley [Hardin](#) who eventually was gunned down in El Paso in 1895, had a sliver of respectability---he passed the Texas Bar legal exam. Where gold is concerned we must be especially cautious and not squat with spurs on. There are cotton mouths and coral snakes in the Big Thicket who'd be poisoned if they bit these monetary marauders. And maybe the fabled Mexican chupacabra will travel north to holiday with them---

Dillon Gage is “in” with [COMEX](#). Sure they have to be in order to not have the type of stupid avoidable price decline issue that sunk Tulving! But Texas gold in any COMEX vault is a bad deal for Texas. The whole sardonic brouhaha of “Texas can’t

be trusted with its own gold” put out by these self portrayed mature, wise and worthy out-of-staters proffering themselves as infinitely more qualified to store Texas gold than Texans, makes us have more respect for the convulsing drunk sliding across the barroom floor in his own puke than for them!

Texas has a feral (wild) hog problem. Texas would do better to let the stinking hogs---whether at the rooter or the tooter end of the hogs--- be caretakers of the gold than any of these “distinguished” organizations. An earlier lawsuit by an Ohio jeweler over another pink diamond shipped to a New York dealer ended with a jury awarding almost \$7 million in [damages](#) to the Ohio firm after the New York dealer said the package arrived empty. It seems that where great value is present, trust issues are sometimes encountered. Texas for Texans---New Yorkers for New York. How about the UTIMCO gold be returned to Texas---without any COMEX affiliation--- and additionally, let Manhattanites store their gold in Texas instead! And we’ll rave with sarcastic ridicule when they exhibit the “juvenile immaturity” to foolishly ask its return! Texas would be better served storing gold 400 feet down in The Devil’s [Sinkhole](#) in Edwards County! Larcenous con men are always ready to “help” those with assets---

Maybe Texas would be better off having “Night Gallery” types like Billie Sol [Estes](#) (con man) Allen [Stanford](#) (the Bernard Madoff of Texas) and T. Cullen [Davis](#) (tried for murder) as managers of an “outside firm” overseeing the gold, with another Charles [Whitman](#) (1966 mass killing in Austin from the University Tower) providing armed security! The Victoria Advocate, July 30, 2016, in a spurious diatribe entitled “Texas Has No Business Panning for Gold,” very [brazenly](#) came out against the Bullion Depository with jive statements like “it doesn’t make financial sense for taxpayers” and “gold is more of a romantic than practical investment!” Time for the small town newspaper, counterfeit Texans in a failing industry superannuated by technology, to relocate to somewhere within 150 miles of New York City! They can use cow pasture barbed wire for dental floss and munch on some central Texas hill country [Llanite](#) so a dentist can clean up! We are

reminded of the “bad companions” mentioned by John Wayne as Texas Ranger captain Jake Cutter in “The [Comancheros](#)” (1961). The six foot, three inch Stanford was severely [beaten](#) by another inmate five months after starting his 110 year sentence for causing investors \$8 billion in losses. That’s the equivalent of 8,000 millionaires busted to zero! People are known to commit suicide, and have heart attacks and paralyzing strokes due to stress caused them by such chiseling lowlifes! Too bad the other inmate didn’t have a jar of “cow [killer](#)” ants to toss onto Stanford. People like Stanford should be handed over to their aggrieved victims. Or belly buster off the 570 foot San Jacinto Monument at LaPorte, Texas. He best watch out someone doesn’t put a Texas cicada killer wasp tail end up his nostril---

At <http://www.dailymail.co.uk/news/article-1327421/Allen-Stanford-beaten> ---he sustained broken bones in the punching and stomping--- note the basin ready to catch the financial

criminal's puke---he looks like he's in shock---next time he'll ride a red hot razor blade into a pool of acid---

Is there a moral to this Stanford story of financial malfeasance?

Where is Walker, Texas Ranger when we need him?

“What do you suppose hell is gonna look like?”

---Richard Boone in “Hombre” 1967

Jeffrey D. Hildebrand is [chairman](#) of UTIMCO but it's McRaven who has the most Establishment connections by far with Hobson close behind. Hildebrand, an energy producer, is a director of the Houston Police Foundation. Maybe he can give them a lecture about respecting private property rights of Texans to own gold and silver without being accused of money laundering, narcotics, terrorism, organized crime (or

contempt of cop!) Kyle Bass is similarly [involved](#) with the Texas Department of Public Safety Foundation. My cynicism causes me to figure these wealthy men have these involvements so they can get additional protection without having to pay for it.

Of David J. Beck, prominent Houston attorney and UTIMCO director, we have little to report besides he's on the board of [visitors](#) ("big shots") to the world famous M.D. Anderson Cancer Center. This Center [disparages](#) any naturalistic approach to management of neoplastic growths. That's predictable; how will the greedy medical community soak up the public wealth if people avoid doctors and use natural substances? No prescription is necessary for these and the greedy MD's resent it. I had dealings with one such local to me and I indicated to him that he couldn't hoodwink me in his belittling of thiamine. Medical greed, financial greed, suppression of gold prices. These things are all close cousins because they all have the effect of concentrating wealth in fewer hands. A prominent [Pharma](#) investor is on the M.D. Anderson board of visitors. This institution is heavily biased.

Phil Adams, UTIMCO director, is a director of the large Scott & White Health Plan also on the vaccine pushing bandwagon. What's his position on the UTIMCO gold? Does he feel it should remain part of the COMEX system? Overwhelmingly the USA medical establishment is the same as the gold/silver suppression, because all the trails lead back to this one group I pound the drums about---The Pilgrims Society. Dr. Russell Bellamy was a founding member of the group's New York

branch in January 1903. He had a high profile ancestry and was physician to other members, who must have realized the great potential for wealth transfer through medicine. Robert C. [Robbins](#) the CEO of Texas Medical Center in Houston is a director of the Houston branch of the Dallas Federal Reserve Bank. His view on remonetization of gold and silver is----- what? Yes, you did hear a rattle. And a hiss! Yonder scurries a scorpion to confer with a web spinning black widow and a brown recluse spider! And the Tarantula [Train](#) honks!

The July 5, 2015, edition of [PBS](#), Public Broadcasting Service quoted Edwin Truman, a senior fellow at the Peterson Institute for International Economics remarking as a flunky for this welter of corruption---

“Just moving it (the gold) would be pretty expensive and unless Texas is anticipating withdrawing from the union, which I suspect is what some peoples want, I don’t see what advantage it is.”

Truman, a possible member of that Presidential family, was with the Federal [Reserve](#) from 1977 to 1998 then rat like he scurried over to the Treasury till 2001. The PBS has had its share of CFR and a few Pilgrims members on its board over the years. The Peterson Institute was founded by Peter G. Peterson, Commerce Secretary in 1972 to 1973. In 1985 to 2007 he assumed the role of chairman of the Council on Foreign Relations handed to him by his fellow Pilgrims Society member David Rockefeller. During 1999 to 2003 Peterson chaired the Federal Reserve Bank of New York. For details on

Peterson see “Silver Squelchers [#24](#).” Peterson is the multi-billionaire founder of The Blackstone Group. The Peterson Institute founded by “the most [influential](#) billionaire in U.S. Politics” The Peterson Institute board of [directors](#) has execs from Dow Chemical (“ex” Silver Users Association member); JP Morgan Chase; Citigroup; Morgan Stanley; Goldman Sachs; World Bank; Treasury Department; Google; identified Pilgrims Society members there include David Rockefeller, former FED chief Paul Volcker and former Treasury Secretary George P. Shultz; and highly likely Pilgrims member there is Douglas Flint, chairman of HSBC London, ***whose USA subsidiary is storing the UTIMCO gold!*** So the Peterson Institute assigns one of its regiment of flunkies to insist there’s no sound reason for Texas gold to be moved to Texas! We are supposed to swallow there’s no ulterior motive on his and their part! Also adding deadly icing to this lethal cake is the matter of Sir Alan Greenspan, Knight of the British Empire, ex FED chief, also being a Peterson Institute director; Greenspan is a highly prospective Pilgrims Society member! The emblem of the Peterson Institute calls to mind images of the rampaging robot automaton “KRONOS,” from the classic [1957](#) science fiction film about a giant alien device sent to earth to absorb all the electric power; except in this case, the goal is to absorb wealth---

WHOOOPS! Let's not omit to mention that another Peterson Institute director is Lynn Forester De Rothschild, prime Hillary Clinton backer whose husband, Sir Evelyn De Rothschild, is as big a nominee for Pilgrims Society membership in London as we've ever seen; his father, Anthony Gustav De Rothschild, was in The Pilgrims London 1957 leaked roster. The son in law of Edmund Rothschild became chairman of the huge silver antagonistic Barclays Bank. Marcus Agius, with roots tracing back nearly 2,000 years in ancient Roman Britain, is another highly likely member---

Rothschild, Anthony G. de

Rothschild, Edmund L. de
Rothschild, James A. de, D.C.M.

It does appear that the participants in the annual "[Rattlesnake Roundup](#)" out of Sweetwater, Texas, should give thought to certain two legged rattlers in business suits over in Austin and their ominous links to far more hazardous characters

elsewhere. It reminds me of the country western character I had a talk with years ago in the former Llano Uplift Café when he added “fliptraps” to my vocabulary. He explained that when the trap door on a gallows is sprung, a hanging takes place; and that fliptraps are people who deserve hanging! Someone wants to turn the Depository into---a suppository; this must not be permitted. To Texas State legislators and other state officials, the people of the great State of Texas quote Richard Boone as Paladin in “Have Gun Will Travel,” episode “Incident in [Laredo](#)”---

“I HOPE YOU HAVE NOTHING FOOLISH IN YOUR MIND!”

In his inaugural address in December 1844, Anson Jones, the last President of the Republic of Texas, warned of---

“THE FALLACY AND DANGER OF A FICTITIOUS PAPER CURRENCY HAVING BEEN DEMONSTRATED BY EVERY CIVILIZED NATION UPON THE EARTH, AND TEXAS HAVING ONCE PARTICIPATED IN THIS DEMONSTRATION, SHOULD NOW ABANDON THE EXPERIMENT AND RESORT IN TIME TO WHAT THE EXPERIENCE OF THE PAST HAS CONCLUSIVELY SHOWN TO BE THE ONLY SAFE EXPEDIENT FOR GOVERNMENTS---A HARD MONEY CURRENCY AS CIRCULATING MEDIUM.”

We remind the Texas Legislature and Governor that this means Texans must be at liberty to either come into the Bullion Depository, or remain outside of it and use gold and

silver (and platinum group metals) as in person payment to those willing to accept it, which by rights will be more and more individuals and businesses. Some of those accepting payment in hand will choose to deposit their hard metal in the State Bullion Depository. Just use free market methods at all times, OK? And don't bust wheels off people's wagons!

If you reside in Texas please contact your legislators and ask them to enact these reforms without delay, because those who desire these reforms greatly outnumber the obscene reprobate parasites opposing them. If you live in another state, ask your legislature there to enact similar reforms. If

you think this presentation has important points, please ask websites to link or otherwise provide coverage.

Contact your Legislators---
